American Society of Echocardiography
29th Annual Scientific Sessions

SEE THE SOUND
HEAR THE SCIENCE

ASE 2018
JUNE 22-26
NASHVILLE TN

Gaylord Opryland Resort & Convention Center

FINAL PROGRAM
INDICATIONS
Activated DEFINITY® (Perflutren Lipid Microsphere) Injectable Suspension is indicated for use in patients with suboptimal echocardiograms to opacify the left ventricular chamber and to improve the delineation of the left ventricular endocardial border.

CONTRAINDICATIONS
Do not administer DEFINITY® to patients with known or suspected hypersensitivity to perflutren.

IMPORTANT SAFETY INFORMATION

WARNING: Serious Cardiopulmonary Reactions
Serious cardiopulmonary reactions, including fatalities, have occurred uncommonly during or following perflutren-containing microsphere administration [see Warnings and Precautions (5.7)]. Most serious reactions occur within 30 minutes of administration.

- Assess all patients for the presence of any condition that precludes DEFINITY® administration [see Contraindications (4)].
- Always have resuscitation equipment and trained personnel readily available.

In postmarketing use, rare but serious cardiopulmonary or hypersensitivity reactions have been reported during or shortly following perflutren-containing microsphere administration [see Adverse Reactions (6)]. The risk for these reactions may be increased among patients with unstable cardiopulmonary conditions [see Adverse Reactions (6.2)]. It is not always possible to reliably establish a causal relationship to drug exposure due to the presence of underlying cardiopulmonary disease.

Please see brief summary of Prescribing Information, including boxed WARNING regarding serious cardiopulmonary reactions on subsequent pages. Please see full Prescribing Information at DEFINITYimaging.com.
a Diagnostic Difference

effectiveness in echocardiography

DEFINITY®

Most Studied®

Most Trusted®

Lantheus Medical Imaging®
The recommended infusion dose for activated DEFINITY® is
infusion saline flush. If necessary, a second 10 microliters (microL)/kg of the activated product by intravenous
suspected:

- Rash, urticaria, pruritus, flushing, and erythema have occurred (pharyngeal, palatal, mouth, peripheral, localized), swelling (face, eye, lip, tongue, upper airway), facial hyposthesia, rash, urticaria, pruritus, flushing, and erythema have occurred

in patients with no prior exposure to perfluatrien-containing microsphere products [see Adverse Reactions]. Always have cardiopulmonary resuscitation personnel and equipment readily available prior to DEFINITY® administration and monitor all patients for hypersensitivity reactions.

**Systemic Embolization**
When administering DEFINITY® to patients with a cardiac shunt, the microspheres can bypass filtering by the lung and enter the arterial circulation. Assess patients with shunts for embolic phenomena following DEFINITY® administration. DEFINITY® is only for intravenous administration; do not administer DEFINITY® by intra-arterial injection [see Dosage and Administration].

**Ventricular Arrhythmia Related to High Mechanical Index**
High ultrasound mechanical index values may cause microsphere cavitation or rupture and lead to ventricular arrhythmias. Additionally, end-systolic triggering with high mechanical indices has been reported to cause ventricular arrhythmias. DEFINITY® is not recommended for use at mechanical indices greater than 0.8 [see Dosage and Administration].

**ADVERSE REACTIONS**
The following serious adverse reactions are described elsewhere in the labeling:

- Serious Cardiopulmonary Reactions [see Warnings and Precautions]
- Hypersensitivity Reactions [see Warnings and Precautions]
- Clinical Trials Experience

Because clinical trials are conducted under widely varying conditions, adverse reaction rates observed in the clinical trials of a drug cannot be directly compared to rates in the clinical trials of another drug and may not reflect the rates observed in practice.

A total of 1716 subjects were evaluated in pre-market clinical trials of activated DEFINITY®. In this group, 1063 (61.9%) were male and 653 (38.1%) were female, 1328 (77.4%) were 18 to 65 years of age, and 388 (22.6%) were > 65 years of age. Of these, 544 (31.7%) were classified as other racial or ethnic groups. The mean age was 56.1 years (range 18 to 93). Of these, 144 (8.4%) had at least one adverse reaction (Table 1). There were 26 serious adverse events and 15 (0.9%) subjects discontinued because of an adverse event.

**Serious Adverse Reactions**
Among the 1716 study patients, 19 (1.1%) suffered serious cardiopulmonary adverse reactions.

For all adverse reactions, the overall incidence of adverse experiences was similar for the <65 year age group and the >65 year age group, similar in males and in females, similar among all races or ethnic groups, similar for bolus and infusion dosing. Table 1 summarizes the most common adverse reactions.

---

**BRIEF SUMMARY**
Please see Full Prescribing Information available at www.definityimaging.com for additional information.

**WARNING: SERIOUS CARDIOPULMONARY REACTIONS**
Serious cardiopulmonary reactions, including fatalities, have occurred uncommonly during or following perfluatrien-containing microsphere administration [see Warnings and Precautions]. Most serious reactions occur within 30 minutes of administration.

- Assess all patients for the presence of any condition that precludes DEFINITY® administration [see Contraindications].
- Always have resuscitation equipment and trained personnel readily available.

**INDICATIONS AND USAGE**
Activated DEFINITY® (Perflurol Lipid Microsphere) Injectable Suspension is indicated for use in patients with suboptimal echocardiograms to opacify the left ventricular chamber and to improve the delineation of the left ventricular endocardial border.

**DOSE AND ADMINISTRATION**

**Important Administration Instructions**

- DEFINITY® is intended for administration only after activation in the VIALMIX® apparatus. Before injection, this product must be activated and prepared according to the instructions outlined below.
- DEFINITY® may be injected by either an intravenous (IV) bolus or infusion. Do not administer DEFINITY® by intravenous injection [see Warnings and Precautions].
- The maximum dose is either two bolus doses or one single intravenous infusion. The safety of bolus and infusion dosing in combination or in sequence, has not been studied.

**Dosage**

- **Bolus**
The recommended bolus dose for activated DEFINITY® is 10 microliters (microL)/kg of the activated product by intravenous bolus injection within 30-60 seconds, followed by a 10 mL saline flush. If necessary, a second 10 microliters (microL)/kg dose followed by a second 10 mL saline flush may be administered 30 minutes after the first injection to prolong contrast enhancement.

**Infusion**
The recommended infusion dose for activated DEFINITY® is via an IV infusion of 1.3 mL added to 50 mL of preservative-free saline. The rate of infusion should be initiated at 4.0 mL/minute, but titrated as necessary to achieve optimal image enhancement, not to exceed 10 mL/minute.

**CONTRAINDICATIONS**
Do not administer DEFINITY® to patients with known or suspected:

- Hypersensitivity to perfluatrien [see Warnings and Precautions].

**WARNINGS AND PRECAUTIONS**

**Serious Cardiopulmonary Reactions**
Serious cardiopulmonary reactions including fatalities have occurred uncommonly during or shortly following perfluatrien-containing microsphere administration, typically within 30 minutes of administration. The risk for these reactions may be increased among patients with unstable cardiopulmonary conditions (acute myocardial infarction, acute coronary artery syndromes, worsening or unstable congestive heart failure, or serious ventricular arrhythmias). Always have cardiopulmonary resuscitation personnel and equipment readily available prior to DEFINITY® administration and monitor all patients for acute reactions.

The reported reactions include: fatal cardiac or respiratory arrest, shock, syncope, symptomatic arrhythmias (atrial fibrillation, tachycardia, bradycardia, supraventricular tachycardia, ventricular fibrillation, ventricular tachycardia), hypoxia, chest pain, respiratory distress, stridor, wheezing.

**Hypersensitivity**
Anaphylactic reaction, anaphylactic shock, bronchospasms, throat tightness, angioedema, edema (pharyngeal, palatal, mouth, peripheral, localized), swelling (face, eye, lip, tongue, upper airway), facial hyposthesia, rash, urticaria, pruritus, flushing, erythema.

**Neurologic**
Coma, loss of consciousness, convulsion, seizure, transient ischemic attack, agitation, tremor, vision blurred, dizziness, headache, fatigue.

**PATIENT COUNSELING INFORMATION**
Advise patients to inform their healthcare provider if they develop any symptoms of hypersensitivity after DEFINITY® administration, including rash, wheezing, or shortness of breath.

**Digestive**
Dyspepsia, dry mouth, tongue disorder, toothache, abdominal pain, diarrhea and vomiting

**Hematology**
Granulocytosis, leukocytosis, leukopenia, and eosinophilia

**Musculoskeletal**
Arthralgia

**Nervous System**
Leg cramps, hypotonia, vertigo and paresthesia

**Platelet, Bleeding, and Clotting**
Hematoma

**Respiratory**
Coughing, hypoxia, pharyngitis, rhinitis and dyspnea

**Special Senses**
Decreased hearing, conjunctivitis, abnormal vision and taste perversion

**Skin**
Pruritus, rash, erythematous rash, urticaria, increased sweating, and dry skin

**Urinary**
Albuminuria

**Postmarketing Experience**
In a prospective, multicenter, open-label registry of 1053 patients receiving DEFINITY® in routine clinical practice, heart rate, respiratory rate, and pulse oximetry were monitored for 30 minutes after DEFINITY® administration. No deaths or serious adverse reactions were reported, suggesting that these reactions are unlikely to occur at a rate of more than 0.3% when DEFINITY® is used according to recommendations.

The following adverse reactions have been identified during the post-marketing use of perfluatrien-containing microsphere products. Because these reactions are reported voluntarily from a population of uncertain size, it is not always possible to reliably estimate their frequency or establish a causal relationship to drug exposure.

Fatal cardiopulmonary and hypersensitivity reactions and other serious but non-fatal adverse reactions were uncommonly reported. These reactions typically occurred within 30 minutes of DEFINITY® administration. These serious reactions may be increased among patients with unstable cardiopulmonary conditions (acute myocardial infarction, acute coronary artery syndromes, worsening or unstable congestive heart failure, or serious ventricular arrhythmias) [see Warnings and Precautions].

Reported reactions included:

- **Cardiopulmonary**
  Fatal cardiac or respiratory arrest, shock, syncope, symptomatic arrhythmias (atrial fibrillation, tachycardia, bradycardia, supraventricular tachycardia, ventricular fibrillation, ventricular tachycardia), hypoxia, chest pain, respiratory distress, stridor, wheezing.

- **Hypersensitivity**
  Anaphylactic reaction, anaphylactic shock, bronchospasms, throat tightness, angioedema, edema (pharyngeal, palatal, mouth, peripheral, localized), swelling (face, eye, lip, tongue, upper airway), facial hyposthesia, rash, urticaria, pruritus, flushing, erythema.

- **Neurologic**
  Coma, loss of consciousness, convulsion, seizure, transient ischemic attack, agitation, tremor, vision blurred, dizziness, headache, fatigue.

All Other Business: 800-362-2668
(For Massachusetts and International, call 978-667-9531)

DEFBS-0217
The recommended bolus dose for activated DEFINITY® is 10 microliters (microL)/kg of the activated product by intravenous administration, including:

- Serious cardiopulmonary reactions including fatalities have been reported.
- Shock, bronchospasm, throat tightness, angioedema, edema
- Rash, urticaria, pruritus, flushing, and erythema have occurred.

Bolus Dosage:

- The maximum dose is either two bolus doses or one single bolus or infusion.
- Do not administer DEFINITY® by intra-arterial injection.
- DEFINITY® may be injected by either an intravenous (IV) bolus or infusion.
- Always have saline flush. If necessary, a second 10 microliters (microL)/kg of the activated product by intravenous administration.

WARNINGS AND PRECAUTIONS

- Serious Adverse Reactions:
  - Cardiovascular: Chest pain, respiratory distress, stridor, wheezing.
  - Respiratory: Tachycardia, ventricular fibrillation, ventricular tachycardia.
  - Nervous System: Seizures, convulsions [see Adverse Reactions].
  - Gastrointestinal: Abdominal pain, diarrhea and vomiting.
  - Hematological: Thrombocytopenia, anemia, leukopenia, neutropenia.
  - Dermatological: Pruritus, rash, erythematous rash, urticaria.
  - Other: Hypersensitivity, anaphylactic reaction, anaphylactic shock.

- Ventricular Arrhythmia Related to High Mechanical Index:
  - If mechanical indices are increased among patients with unstable cardiopulmonary conditions (acute myocardial infarction, acute coronary syndrome).

- Ventricular fibrillation, ventricular tachycardia,
  - Fatal cardiac or respiratory arrest, shock, syncope, symptomatic
  - Ventricular tachyarrhythmias, ventricular fibrillation, and convulsions [see Adverse Reactions].

- Postmarketing Experience:
  - Systemic Embolization
  - Additionally, end-systolic triggering with high mechanical indices
  - Postoperative cardiac surgery, coronary artery bypass grafting.

- All Other Business: 800-362-2668

Siemens Healthineers

ASE American Society of Echocardiography
Dear Friends & Colleagues,

On behalf of the entire Scientific Sessions Planning Committee, we warmly welcome you to the 29th Annual ASE Scientific Sessions. We have created a very exciting program that will prove worthwhile and fulfilling for all attendees. Our theme, “See the Sound, Hear the Science,” captures the essence of Nashville, also known as the “Music City,” and more importantly defines our commitment to scholarship in the field of echocardiography. This meeting is the premier cardiovascular ultrasound educational event of the year and includes a record number of abstract and poster presentations highlighting the latest science.

Expert faculty will present novel sessions on adapting guidelines into practice, lab management and career development for both sonographers and physicians including a panel discussion on Pathways to Leadership for Women in ASE. An IAC Boot Camp is being offered on Friday, to educate and assist you with your accreditation questions and concerns. Join us on Saturday morning to learn about the use of social media to ensure that we, and others, “see” the value and utility of echocardiography.

We are proud to provide educational opportunities for those who need to advance their knowledge in specific areas that are becoming increasingly important for the general echocardiographer, such as adult congenital heart disease, strain imaging, multimodality imaging, and new clinical applications for stress echo in valve disease and cardiomyopathy. You will also notice that we are providing cutting-edge information on new technology and clinical integration of 4D imaging, echo in heart failure, assessment of valve disease, contrast echocardiography, and echo in oncology. There are a diverse array of dedicated sessions for pediatric specialists and those who specialize in circulation imaging as well as perioperative echo, point of care ultrasound, and the use of echo in structural heart interventions. The 3rd Echovation Challenge, on Sunday afternoon, will provide an opportunity to enjoy a fun shark tank-style session as we look at innovative ideas in echo. An interesting case-based session on Sunday, The Best of CASE, features cases from ASE’s new online journal CASE. Chalk Talks allow for dynamic interactions with luminaries in the field and will occur throughout the meeting with two additional learning opportunities on Saturday this year. Please plan to join in on the Brian Haluska Sonographer Research Award and Young Investigator’s Award Competitions on Monday afternoon. Echo Jeopardy and Pediatric Echo Jeopardy are back! Look for these ever popular fast-paced sessions Saturday afternoon.

Mark K. Friedberg, MD, FASE, will deliver the 19th Annual Feigenbaum Lecture, “Echocardiographic Insights into the Stressed Right Ventricle: A Whole Hearted Story,” on Monday afternoon. Immediate Past President, Allan L. Klein, MD, FASE, will present the Edler Lecture, “Dermatology of the Heart: Tales from the Pericardial Sac,” on Saturday morning. On Sunday, Jan D’hooge, MSc, PhD, will deliver the Kalmanson Lecture, “Technological Advances Driving a New Era for Tissue Doppler Imaging” and James Kirkpatrick, MD, FASE, will present “Ethical Challenges in the Practice of Echocardiography: What is Right and How Do We Do It?” the first ever Richard E. Kerber Ethics/Humanitarian Lecture in memory of our Past President, Richard Kerber, MD, FASE.
The Exhibit & Poster Hall serves as our gathering place to view the latest in technology and learn more in the industry-supported Science and Technology Theater sessions. Visit over 470 posters detailing the latest research, including moderated posters.

But that’s not all! The ASE Foundation’s Annual Research Awards Gala on Sunday evening will celebrate individual and Foundation achievements. The ticketed reception before the Gala, with a Tennessee Waltz theme, will take place on Delta Island in the middle of the atrium at the Gaylord. There are numerous networking opportunities for career development interspersed throughout the program.

On behalf of the ASE 2018 Scientific Session Program Committee and the Board of Directors, welcome to Nashville!
CASE-BASED LEARNING (CL)
During these sessions, the practice of clinical echocardiography and its relationship to patient management will be highlighted and stressed by experts. Special attention is paid to valvular disease during dedicated sessions. In addition, diastolic function, contrast, the right ventricle, and myriad other topics are covered in these sessions. There is a dedicated track devoted to cases each morning from 7:00 – 7:50 AM.

IMAGING ESSENTIALS (E)
This track will instruct practitioners on techniques of assessment and quantitation. There are disease-based sessions that will help you improve your skills in chamber quantification and imaging a variety of disease states. In addition, there are practical sessions on lab management, diastology, and pericardial disease that you can incorporate into your lab when you return home.

PEDIATRIC/CONGENITAL (PC)
The ASE Council on Pediatric and Congenital Heart Disease has created a program packed with cutting-edge science from fetus to adult, whether you are a pediatric echocardiographer or just want to learn more about the care of patients living with congenital heart diseases. The popular staples of the track return: Pediatric Echo Jeopardy, Fireside Chat, case presentations, oral abstract sessions, and the always entertaining controversy debates. We will unveil the mysteries of some of the newer echo technologies, such as 3D printing, and see how expert care centers apply them in clinical practice.

PERIOPERATIVE (P)
The Perioperative Track has been designed by the ASE Council on Perioperative Echocardiography and brings together cardiac anesthesiologists, sonographers, cardiologists and surgeons with the goal of sharing knowledge in cardiovascular care and perioperative/periprocedural echocardiography. The topics of these sessions will include decision-making in mechanical circulatory support, current trends in tricuspid valve regurgitation, present and future of percutaneous mitral valve therapy, implementation of the new guidelines in perioperative practice, and overview of emerging cutting-edge technology in perioperative cardiac imaging.

POINT OF CARE (POC)
The Point of Care track has been added because this highly valuable modality is of critical importance as healthcare practitioners become skilled in the use of point of care ultrasound. Two special sessions are planned for Friday afternoon, POCUS Extra Cardiac Imaging Workshop and New Frontiers of POCUS. There are also sessions on understanding ultrasound outside the echo lab and evaluating the hypertensive patient in the ICU and emergency department.

SYMPOSIA (S)
The 2018 Program Committee has designed the Symposia Track to move from more basic lectures on Saturday to an increasing focus on new technology, techniques, and science on the other days. Each symposium discusses a specific topic in detail and instructs you on how to apply state-of-the-art cardiovascular ultrasound techniques in clinical practice.

RESEARCH (R)
Investigators will present the latest advances in cardiovascular ultrasound throughout the conference. Don’t miss two special competitions designed to acknowledge exceptional research, The Brian Haluska Sonographer Research Award Competition and the prestigious Arthur E. Weyman Young Investigator’s Award Competition, where the four best abstracts submitted compete in front of a panel of luminaries for international recognition. Meet the investigators during dedicated poster viewing times in the Exhibit & Poster Hall.

CIRCULATION (C)
ASE’s Council on Vascular Ultrasound has put together a program that will provide attendees with an excellent overview, as well as advanced topics on vascular ultrasound of interest to the practicing cardiologist/sonographer. Topics such as carotid imaging will be covered from basics to advanced techniques. Additional state-of-the-art and cutting-edge technologies will be covered as well in what promises to be an exciting session. You won’t want to miss the special session on Friday, June 22, Vascular Screening: Carotid, Aorta, Ankle-Brachial Index.

ASE is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. For detailed information, please download the ASE Courses app or visit ASEScientificSessions.org.

#ASE2018
ATTENDEE REGISTRATION
The ASE Registration Counter is located in the Presidential Lobby on Level 2 of the Gaylord Opryland Resort & Convention Center. Attendees may pick up their conference materials and name badge at this location.

REGISTRATION HOURS

Friday, June 22nd .......... 12:00 Noon – 6:15 PM
Saturday, June 23rd ........ 6:30 AM – 5:00 PM
Sunday, June 24th .......... 6:30 AM – 5:00 PM
Monday, June 25th ......... 6:30 AM – 5:30 PM
Tuesday, June 26th ........ 6:30 AM – 2:30 PM

NAME BADGES
Admission to the educational sessions, ASE Exhibit & Poster Hall, and Science & Technology Theater is by badge only. Please wear your name badge at all times when in the convention center. We recommend, for your safety, that you do not wear your name badge outside of the convention center. ASE exhibitors may scan your badge in the Exhibit & Poster Hall or Science & Technology Theater. Your name badge is used for lead retrieval and provides exhibitors with your name, institution (where applicable), address, business telephone number, and email address.

Faculty name badges are available at the ASE Registration Counter during registration hours.

ASE will not release email addresses of attendees who declined the lead retrieval option on their registration form. Family members with guest badges will be admitted to the Exhibit & Poster Hall and may sit in on educational sessions as space allows, but they are not eligible for a conference bag or to claim CME/MOC/CEU credit. Guests must be at least 12 years old. You may purchase guest badges for family members at the ASE Registration Counter. ASE reserves the right to revoke or deny attendance to any registered participant, speaker, exhibitor, news media reporter, or photographer at presentations or activities during the 29th Annual ASE Scientific Sessions.

SPEAKER READY ROOM
The Speaker Ready Room is located in Lincoln Room C-D on the Presidential Mezzanine Level and staffed with technicians to assist faculty with uploading and previewing presentations. It is open during the following times:

Friday, June 22nd .................. 12:00 PM – 5:00 PM
Saturday, June 23rd .............. 6:00 AM – 5:00 PM
Sunday, June 24th ............... 6:30 AM – 4:30 PM
Monday, June 25th ............... 6:30 AM – 4:30 PM
Tuesday, June 26th .............. 6:30 AM – 12:00 PM
To claim your CME credit for the 29th Annual ASE Scientific Sessions, please follow these steps using Mozilla Firefox, Google Chrome, or Safari browsers. **Internet Explorer will not work.**

**THE DEADLINE TO CLAIM CREDIT FOR THIS CONFERENCE IS AUGUST 28, 2018.**

**ASE Members:**
1. Go to ASEcho.org and log on to the Member Portal with your username (email) and password.
   a. If you forget your password, simply click "Retrieve" under the login.
2. Click on ASEUniversity and CME Credits. This will take you directly to your ASEUniversity account.

**Nonmembers:**
1. Go to ASEUniversity.org.
2. Log into your existing account or create a new one.

**To Claim Credit:**
3. On the ASEUniversity homepage, click My Account at the top right of the page.
4. Under My Account, click Add Access Code on the left sidebar and enter the code, “29thASE”
5. Verify your registration information. Please be sure to use the same information that you used to register for the event.
6. Once verified, click CE Information tab and Take Exam button to claim your CME credit. CME credits are not earned until the entire evaluation has been completed.
7. Your certificate will be available for immediate download and can also be found under My Account in the My Transcripts.

Remember to enter your ABIM, ABP, and/or ABA number and birthdate if you choose to have MOC and/or MOCA points for this meeting submitted to ABIM, ABP, and/or ABA. There is a space for this information on the first page of the evaluation.

---

**INTERACTIVE SESSIONS: ASK QUESTIONS**

The ASE Courses app contains detailed information on each of ASE’s live courses. You will find faculty, agendas, exhibitors, networking events, and more. Use the app on site to create your own event schedule and receive notifications of special activities. You can download the app by going to the appropriate link below or by searching for ASE Courses in the Apple or Google Play store.

iOS: http://apple.co/2oQyI3z

Once you have downloaded the app, you can use the app to ask questions during each session.

1. Select “Agenda” on the main screen to access the sessions.
2. Select the Session you are attending.
3. Select “Ask”
4. Enter your question and tap the red symbol in the bottom right corner of the screen.
FACILITY INFORMATION

The Gaylord Opryland Resort & Convention Center’s physical address is:

2800 OPRYLAND DRIVE
NASHVILLE, TENNESSEE 37214

Lying almost in the center of Tennessee on the Cumberland River, the vibrant and growing capital city of Nashville shines as a leading center of higher education. Appropriately known as the “Athens of the South,” there is even a Nashville Parthenon. Nashville is perhaps best known, however, as the capital of country music, as proven by such attractions as the famous Music Row district and Country Music Hall of Fame. Other sites such as the Hermitage and Belle Meade Plantation also add to the history and diversity of this great city. Additionally, The District, a 20-block area in downtown, has been the nightlife epicenter for decades, as well as a popular destination for Nashville’s growing food scene, specialty shopping, and many entertainment options. Learn more and plan your after-session activities at VisitMusicCity.com!

FIRST AID

An emergency medical professional will be available during the hours of the ASE 2018 meeting, as well as during setup and break down of the entire event. In the event of a medical emergency, please find a staff member or security guard to call the nurse on duty.

LOST & FOUND

Questions regarding lost or found items can be directed to the ASE Registration Counter located in the Presidential Lobby on Level 2 of the convention center.

LUGGAGE STORAGE

Luggage storage will be available at the Gaylord Opryland Resort & Convention Center in the Presidential Lobby near the ASE Registration Counter on Tuesday, June 26.

FEDEX OFFICE PRINT & SHIP CENTER

Gaylord Opryland provides you with an office away from the office. FedEx Office is centrally located next to the Presidential Ballroom in the Convention Center, offering convenient access for any type of print job, no matter the size or service required. For last-minute changes or projects, the business center offers 24-hour self-service printing and copying. Hours of operation are Monday – Sunday, 6:00 AM to 9:00 PM.

**FOOD FUNCTIONS**

ASE will provide continental breakfast in the Presidential Lobby by the Registration Counter from 6:30 – 7:30 AM daily. Morning and afternoon coffee breaks are available for registered attendees in the Exhibit & Poster Hall on Sunday, June 24 and Monday, June 25 and in the Tennessee Lobby, on Friday, June 22, Saturday, June 23, and Tuesday, June 26. Please refer to the Schedule at a Glance pages for the times of the daily breaks. For those attending the Science & Technology Theater, located in the Exhibit & Poster Hall on the Lower Level, ASE will provide boxed meals during each lunch session on a first come, first served basis (max. 350 participants). Various refreshments may also be available for the evening sessions. See page 79 of this program for a detailed theater schedule.

**INTERNET ACCESS**

Complimentary Wi-Fi is available in the Gaylord Opryland Resort & Convention Center. Please use the following log-in information:

- Network: ASE2018
- Password: IHeartEcho

**MOBILE DEVICE USE**

We encourage you to use your mobile device to download the new ASE Courses app. After you have downloaded the app, you will have access to the entire meeting program at your fingertips. You can also use the app to ask questions during the sessions you attend. Please remember to turn your mobile device to silent or vibrate mode when attending sessions. Refer to Page 13 for more information on the app.

**SAFETY**

Audience seating is on a first come, first served basis. According to fire code, a session must be closed if the room fills to capacity. ASE reserves the right to close session rooms as needed, without compensation to attendees. Inappropriate behavior or undesirable conduct, including, but not limited to, verbal or physical abuse, whether threatened or performed, will not be permitted or tolerated. You must wear your name badge at all times in the convention center. Be sure to remove your badge when you leave the convention center.

**NEWS MEDIA**

For information regarding news releases, news conferences, and interviews, please visit the ASE Registration Counter located in the Presidential Lobby on Level 2 of the Gaylord Opryland Resort & Convention Center. Copies of all news releases are also available under “News” on ASEcho.org. Media representatives must be registered and display their official ASE badge to enter conference areas. Please conform to our Photography and Audio/Visual Recording policy.

**PHOTOGRAPHY AND AUDIO/VISUAL RECORDING POLICY**

No person may record any portion of the ASE 2018 Scientific Sessions, either by video, still or digital photography, audio or any other recording or reproduction mechanism without prior written permission from ASE. Taking photos or recording the content of meeting room slides or poster abstract presentations is also prohibited and is considered intellectual piracy. Attendees who ignore this policy will be asked to leave the educational session and are at risk of losing their conference badge and privileges. Photographs taken for the purpose of sharing on social media are allowed, but should avoid showing presentation slides. Please use #ASE2018 when posting on social media. ASE reserves the rights to all recordings or reproductions at ASE meetings. Please be aware that during the Scientific Sessions, attendees, vendors, guests, and exhibitors may be photographed or videotaped by ASE contractors capturing the event. Some of these photographs or videos may be displayed by ASE in future publications or other materials. By virtue of your attendance, you agree to allow ASE to use photographs of you in its promotional materials.

**CHILDREN**

ASE does not offer childcare services. Due to limited seating capacity and the highly technical nature of the program, children are not allowed to attend sessions. Children 12 and older must have a purchased guest registration before they will be allowed entry into the Exhibit & Poster Hall. Children 11 and younger, strollers, and infant carriers are not permitted on the exhibit floor at any time. For their safety, children must be accompanied by an adult at all times during the ASE 2018 Scientific Sessions.
TARGET AUDIENCE

The ASE 29th Annual Scientific Sessions will benefit all healthcare providers interested in the application of cardiovascular ultrasound imaging in the care of patients and in research. ASE’s membership is open to all echo enthusiasts, so this conference is designed to engage a diverse audience. Participants with a wide variety of interests and expertise in cardiovascular imaging will find sessions that meet their needs and help improve their practice. High quality lectures, debates, case-based presentations, and oral and poster research presentations offer a broad spectrum of educational opportunities in both large and small group settings. The curriculum is intended to enhance knowledge and performance for adult and pediatric cardiologists, cardiothoracic and vascular surgeons, cardiac anesthesiologists, cardiac sonographers, and emergency and critical care physicians, as well as hospitalists, veterinarians, radiologists, research scientists, primary care practitioners, residents and fellows in training, students, and nurses. Attendees are encouraged to interact with available faculty, and also to take advantage of the opportunity to gain new expertise.

DISCLAIMER

The information provided during this CME activity is for continuing education purposes only and is not meant to substitute for the independent medical judgment of a healthcare provider relative to the diagnosis and treatment options of a specific patient’s condition.

COMMERCIAL SUPPORT DISCLOSURE STATEMENT

EDUCATIONAL GRANTS

This activity is supported in part by educational grants from: Abbott, Actelion Pharmaceuticals, Edwards Lifesciences, Lantheus Medical Imaging, Inc., and Medtronic.

IN-KIND DONATIONS

This activity is supported in part by in-kind donations from: FUJIFILM Medical Systems U.S.A., Inc., GE Healthcare, Philips, Siemens Healthineers, and Unetixs.

CONFERENCE OBJECTIVES

This program has been designed to allow attendees to access a broad overview of topics or delve deeply into one or two topics. In addition, particular care has been taken to incorporate ASE guidelines into talks to demonstrate how and why they should be applied in your daily practice. Upon completion of this course, participants should be better able to:

- Utilize cardiac and vascular ultrasound for the comprehensive assessment and management of cardiovascular diseases including, but not limited to: valvular heart disease, coronary artery disease, cardiomyopathies, pericardial disease, congenital heart disease, peripheral artery disease, and effects of systemic disease on the heart.
- Incorporate new guideline recommendations into clinical practice.
- Recognize the recent advancements and future direction of cardiac and vascular ultrasound and the impact these advancements may have on patient care.
- Integrate the latest technical developments into clinical practice.
- Employ cardiac ultrasound in pre-procedural, intraprocedural, and post-procedural care of patients in the operating room and catheterization laboratory.
- Delineate how the new changes in the healthcare delivery system affect the private and hospital-based practice of cardiology and cardiovascular imaging.
- Improve quality and workflow in the echocardiography lab through practice-improvement measures.
- Define the role of echo specifically in the guidance of non-surgical procedures.
- Discuss best practices in education for sonographer and physician staff, cardiology fellows, and sonography students and management of echocardiographic laboratories.
- Describe the lab accreditation process and standards for clinical practice and quality improvement.
- Explain the primary uses of echocardiography in the areas of critical care and emergency medicine.
- Apply new technologies such as 3-D and stress echo for advanced assessment of valve disease.
- Integrate qualitative and quantitative echocardiography for better understanding of physiology and anatomy of cardiac surgical patients in order to optimize practice performance and patient outcomes.
ACCREDITATION AND DESIGNATION

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint providership of the American Society of Echocardiography and the American Society of Echocardiography Foundation. The American Society of Echocardiography is accredited by the ACCME to provide continuing medical education for physicians.

ASE is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. ASE Designates the 29th Annual ASE Scientific Sessions for a maximum of 30.5 AMA PRA Category 1 Credits™ for attending the entire conference. Attendees should claim only the credit commensurate with the extent of their participation in the activity.

DAILY BREAKDOWN OF CME CREDITS:
June 22, 2018 = 4.0
June 23, 2018 = 7.0
June 24, 2018 = 6.5
June 25, 2018 = 7.5
June 26, 2018 = 5.5

Successful completion of this CME activity enables the participant to earn up to 30.5 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the ASE’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Successful completion of this CME activity, which includes participation in the activity, with individual assessments of the participant and feedback to the participant, enables the participant to earn up to 24 MOC points in the American Board of Pediatrics’ (ABP) Maintenance of Certification (MOC) program. It is ASE’s responsibility to submit participant completion information to ACCME for the purpose of granting ABP MOC credit.

Successful completion of this CME activity enables the participant to earn up to 30.5 MOCA® points in The American Board of Anesthesiology® (ABA) Maintenance of Certification in Anesthesiology Program® or “MOCA®”. It is ASE’s responsibility to submit participant completion information to ACCME for the purpose of granting ABA MOCA® credit.

Successful completion of this CME activity enables the participant to earn up to 30.5 MOCA® points in the European Board of Accreditation in Cardiology (EBAC) recognize each other’s accreditation systems as substantially equivalent. To obtain EBAC credit for participation in this activity, submit evidence of participation directly to EBAC (ebac-cme.org).

The European Union of Medical Specialists (UEMS)-European Accreditation Council for Continuing Medical Education (EACCME) has an agreement of mutual recognition of continuing medical education (CME) credit with the American Medical Association (AMA). European physicians interested in converting AMA PRA Category 1 Credit™ into European CME credit (ECMÉC) should contact the UEMS (uems.eu).

The National Board of Echocardiography™ (NBE) requires 15 hours of echocardiography specific CME for both ReASCE® and RePTE® recertification. This activity contains 30.5 AMA PRA Category 1 Credits™ that can be used toward recertification requirements.

ARDMS, CCI, and Sonography Canada recognize ASE’s certificates and have agreed to honor the credit hours toward their registry requirements for sonographers.

All or a portion of this educational activity may meet the CME requirement for IAC Echocardiography accreditation. This activity is eligible for Section 1 credits in the Royal College of Physicians and Surgeons of Canada’s Maintenance of Certification (MOC) Program. Participants must log into MAINPORT to claim this activity.

DISCLOSURE

The American Society of Echocardiography is committed to ensuring that its educational mission and all educational programs are not influenced by the special interests of any corporation or individual, and its mandate is to retain only those speakers whose financial interests can be effectively resolved to maintain the goals and educational integrity of the program. While a monetary or professional affiliation with a corporation does not necessarily influence a speaker’s presentation, the Essential Areas and policies of the ACCME require that any relationships that could possibly conflict with the educational value of the program be resolved prior to the educational session and disclosed to the audience. In accordance with these policies, ASE implemented mechanisms prior to the planning and implementation of this CME activity to identify and resolve conflicts of interest for all individuals in a position to control content. Disclosure information is referenced and can be found beginning on page 19 of this program.

Maintenance of Certification in Anesthesiology Program® and MOCA® are registered certification marks of the American Board of Anesthesiology®. MOCA 2.0® is a trademark of the American Board of Anesthesiology®.
It is the policy of ASE to ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. All speakers at the 29th Annual Scientific Sessions have agreed to the following:

★ The information presented to the learner will be unbiased, scientifically balanced and based on best available evidence and best practices in medicine.

★ All reasonable clinical alternatives will be presented when making practice recommendations.

★ All scientific research referred to, reported or used in support or justification of patient care recommendations will conform to the generally accepted standards of experimental design, data collection, and analysis.

★ To disclose to the audience when products/services are not labeled for the use under discussion or when the products are still under investigation.

★ To comply with patient confidentiality requirements as outlined in the Health Insurance Portability and Accountability Act (HIPAA) by removing any and all patient identifiers from presentations.

★ Relationships with commercial interests will not influence or bias the presentations and/or planning of the activity.

ASE is committed to resolving all conflicts of interest issues, and its mandate is to retain only those speakers with financial interests that can be reconciled with the goals and educational integrity of the educational program. In accordance with these policies, the ASE implemented mechanisms during the planning and implementation of this CME activity to identify and resolve conflicts of interest for all individuals in a position to control content.

In accordance with this policy and the ACCME, all presenters have indicated whether or not they and/or their spouse/significant other have a relationship with a commercial interest which, in the context of their presentation, may be perceived by the audience as a real or apparent conflict of interest (e.g. ownership of stock, research grant, etc.). The ACCME defines a commercial interest as any proprietary entity producing healthcare goods or services consumed by, or used on patients, with an exception of nonprofit or government organizations and non-healthcare related companies.

The ACCME does not consider providers of clinical services directly to patients to be a commercial interest.

The National Board of Echocardiography is delighted to recognize our Immediate Past President Linda D. Gillam, MD, FASE as the first recipient of ASE’s Mentorship Award. We extend our congratulations on this well-deserved honor.

Linda D. Gillam, MD, FASE
Critical Care ECHOCARDIOGRAPHY Review Course

November 6-8, 2018
Loews Chicago O'Hare Hotel
Rosemont, Illinois, USA

The new Critical Care Echocardiography Review Course is a live two-and-a-half-day course held in partnership between the Society of Critical Care Medicine and the American Society of Echocardiography. This course will educate attendees in all aspects of echocardiography in critically ill patients and help attendees prepare for the critical care echocardiography board examination offered by the National Board of Echocardiography.

Course benefits include:
• Preparation for the new critical care echocardiography board examination
• Review by highly skilled faculty, including intensivists, cardiologists, critical care anesthesiologists, pulmonologists, surgeons, emergency medicine physicians, and cardiac sonographers
• Valuable information for staying up to date on the latest in ultrasound and echocardiography education, as well as team-based care to keep skills relevant
• Incorporation of clinical practice acumen with available published guidelines, expert consensus, and evidence-based recommendations

For more information and to register, visit sccm.org/echoreview.

IAC’s Seal of Approval Verifies the Quality Your Patients Deserve

Serving the ASE membership for more than 20 years, IAC has been the leader in offering accreditation programs that ensure facilities are providing the highest level of quality patient care. IAC-accredited facilities benefit from:

- **Comprehensive Case Review**: IAC is the only CMS-approved accrediting body that provides a clinical peer review of case studies (with pathology) for diagnostic quality, report accuracy and report completeness.

- **Quality Improvement Tool**: Facilities use the tool to assess their case studies and final reports and receive a quantitative report targeting opportunities for continuous process improvement. Physicians may use the IAC Qi Tool to satisfy a component of MIPS performance measures under the improvement activity category.

- **Lower Cost**: IAC accreditation is a cost-effective solution for your facility, offering discounts and a single application for multi-site facilities. For details, visit intersocietal.org/iac/about/programs.htm.

About IAC

The IAC is a nonprofit organization in operation to evaluate and accredit facilities that provide diagnostic imaging and procedure-based modalities, thus improving the quality of patient care provided in private offices, clinics and hospitals where such services are performed.

Committed to its mission through a rigorous peer review process, the IAC has granted accreditation to more than 14,000 sites since its inception in 1991. IAC accreditation is widely respected within the medical community, as illustrated by the support of more than 40 national medical societies.

American Society of Echocardiography

HITACHI
Inspire the Next
7:00 AM – 7:50 AM
**CL** Adopting Guidelines Into Clinical Practice – Tennessee Ballroom B
*Chairs: F. Asch, N. Weissman*

7:00 AM – 7:15 AM
Aortic Stenosis
*W. Zoghbi*

7:15 AM – 7:30 AM
Valvular Regurgitation
*M. Sarano*

7:30 AM – 7:45 AM
Cardiac Source of Embolism
*M. Saric*

7:45 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM
**E** How to Apply the Guidelines: Diastolic Function Update – Presidential Ballroom A
*Chairs: C. Kramer, L. Rodriguez*

7:00 AM – 7:15 AM
Basics of Diastolic Function: The Measurements
*J. Hill*

7:15 AM – 7:25 AM
Review of the Guideline: Key Points
*A. Pellett*

7:25 AM – 7:40 AM
Applying the Guideline: Cases
*D. Bourque*

7:40 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM
**PC** Pediatric Point of Care Ultrasound (POCUS) – Tennessee Ballroom C
*Chairs: C. DeGroff, A. Kavanaugh-McHugh*

7:00 AM – 7:15 AM
Focus in Neonatal Intensive Care Unit
*L. Dupree Hatch*

7:15 AM – 7:30 AM
Focus in Pediatric Intensive Care Unit
*S. Morhy*

7:30 AM – 7:45 AM
Focus in the Emergency Department
*J. Burzynski*

7:45 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM
**S** Social Media in Medicine: Time to Get Involved – Presidential Ballroom B
*Chairs: J. Kirkpatrick, S. Mulvagh*

7:00 AM – 7:12 AM
Why Use Social Media in Medicine?
*A. Narang*

7:12 AM – 7:24 AM
Social Media Platforms: Which One Should I Pick?
*M. Swaminathan*

7:24 AM – 7:36 AM
Social Media Pitfalls and Mistakes
*A. Johri*

7:36 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM
**C** Mock RPVI/RVT Exam – Tennessee Ballroom D
*Speakers: B. Fowler, E. Kim, L. Sanchez*
SATURDAY, JUNE 23 SCHEDULE

8:00 AM – 9:30 AM
 ASE Awards Presentations, Announcements, FASE Recognition, and 29th Annual Edler Lecture – Presidential Ballroom D

State of ASE
V. Rigolin

Board of Directors Induction and Announcements
V. Rigolin

FASE Recognition
V. Rigolin, N. Skubas

Edler Lecture: Dermatology of the Heart: Tales from the Pericardial Sac
A. Klein

Award Presentations and Recognitions
V. Rigolin

Incoming President’s Address
J. Lindner

10:00 AM – 11:30 AM
C A Multidisciplinary Approach to Aorta – Tennessee Ballroom D
Chairs: R. Kasliwal, F. Shamoun

10:00 AM – 10:15 AM
Update on Acute Aortic Syndrome
K. Maganti

10:15 AM – 10:30 AM
Non-Atherosclerotic Disease
N. Hamburg

10:30 AM – 10:45 AM
Peri-Surgical Imaging of the Aorta
R. Sheu

10:45 AM – 11:00 AM
Abdominal Aortic Aneurysm: Contemporary Imaging and Management
F. Shamoun

11:00 AM – 11:15 AM
An Aortic Center’s Approach to the Patient with Thoracic Aneurysm (Marfan/LDS/Bicuspid)
C. Fanola

11:15 AM – 11:30 AM
Question and Answer

10:00 AM – 11:30 AM
P Decision Making in Mechanical Circulatory Support – Tennessee Ballroom B
Chairs: A. Nicoara, S. Shillcutt

10:00 AM – 10:15 AM
COPE Council Business Meeting
A. Finley

10:15 AM – 10:30 AM
Right Ventricular Dysfunction in Left Ventricular Assist Devices
S. Shillcutt

10:30 AM – 10:45 AM
Tricuspid Regurgitation in Left Ventricular Assist Devices
A. Finley

10:45 AM – 11:00 AM
Utility of Echo in Temporary Circulatory Support
F. Cobey

11:00 AM – 11:15 AM
Graduating from Temporary Circulatory Support: Predictors of Successful Weaning
M. Pretorius

11:15 AM – 11:30 AM
Question and Answer

10:00 AM – 11:30 AM
R Novel Concepts in Diastology – Presidential Ballroom D
Chairs: S. Lester, M. Quiñones

10:00 AM – 10:15 AM
New Diastolic Concepts
O. Smiseth

10:15 AM – 10:30 AM
Diastology in HFrEF
S. Shah

10:30 AM – 10:45 AM
OA-01: Performance of Diastolic Function Classification Systems to Predict Incident Death or Hospitalization for Heart Failure in a VA Population
Y. Han

10:45 AM – 11:00 AM
Echo Doppler Estimation of Left Ventricular Filling Pressure
B. Popescu
11:00 AM – 11:15 AM
Diastolic Stress Testing
P. Pellikka

11:15 AM – 11:30 AM
When Echo is Not Enough for Diastology: Multimodality
S. Shah

10:00 AM – 11:30 AM
PC Path-Echo Correlations I: Tetralogy of Fallot
– Tennessee Ballroom C
Chairs: D. Bichell, T. Geva, L. Young

10:00 AM – 10:20 AM
Pathology
S. Sanders

10:20 AM – 10:35 AM
Fetal Imaging and Innovations to Predict Post-natal Severity
S. Srivastava

10:35 AM – 10:50 AM
Pre-operative Imaging: What Did I Forget?
C. Taylor

10:50 AM – 11:05 AM
Intervention: When to Dilate, When to Stent
D. Janssen

11:05 AM – 11:20 AM
Surgery: Transannular Patch or Valve Sparing or Something in Between
D. Bichell

11:20 AM – 11:30 AM
Question and Answer

10:00 AM – 11:30 AM
E Working 9 to 5: Sonographer Career Development – Presidential Ballroom A
Chairs: C. Mitchell, S. Wiegers

10:00 AM – 10:20 AM
Council on Cardiovascular Sonography Business Meeting
C. Mitchell

10:20 AM – 10:35 AM
Sonographer Career Pathways
M. Roberts

10:35 AM – 10:50 AM
Advanced Cardiac Sonography (ACS): A New Career
M. Umland

10:50 AM – 11:05 AM
ASE Mentoring Program
M. Orsinelli

11:05 AM – 11:30 AM
Panel Discussion: Pathways to Leadership for Women in ASE

1:00 PM – 2:30 PM
$ 3D Echocardiography – Presidential Ballroom B
Chairs: V. Rigolin, B. Lin

1:00 PM – 1:15 PM
3D Assessment of Left Ventricle and Left Atrial Volumes
L. Sugeng

1:15 PM – 1:30 PM
3D Assessment of Mitral Valve Pathology
A. Rabischoffsky

1:30 PM – 1:45 PM
3D to Guide Mitral Valve Interventions
D. Shook

10:45 AM – 11:00 AM
Right Ventricular Infarction
M. Corretti

11:00 AM – 11:15 AM
Adverse Effects of Pacing on the Right Ventricle
J. DeCara

11:15 AM – 11:30 AM
Question and Answer

10:00 AM – 11:30 AM
$ The Right Stuff – Presidential Ballroom B
Chairs: L. Rudski, N. Schiller

10:00 AM – 10:15 AM
Right Ventricular Measurements
R. Saxena

10:15 AM – 10:30 AM
Arrhythmogenic Right Ventricle Dysplasia
D. Yoerger Sanborn

10:30 AM – 10:45 AM
Carcinoid
G. Chidsey

**SCHEDULE**

**SATURDAY, JUNE 23**
1:00 PM – 1:15 PM
Overview of Pulmonary Hypertension: WHO Classification
B. Freed

1:15 PM – 1:30 PM
Echo Findings in Pulmonary Hypertension
P. Gutierrez-Fajardo

1:30 PM – 1:45 PM
Systemic Diseases
M. Mukherjee

1:45 PM – 2:00 PM
Pulmonary Hypertension Secondary to Left Ventricular Disease
A. Hays

2:00 PM – 2:15 PM
Multimodality Imaging
Y. Han

2:15 PM – 2:30 PM
Question and Answer

1:00 PM – 2:30 PM
E State of the Art: Assessment of Valvular Heart Disease – Presidential Ballroom A
Chairs: R. Harper, V. Nkomo

1:00 PM – 1:15 PM
Qualitative and Semi-Quantitative Evaluation of Mitral and Aortic Regurgitation
E. Shea

1:15 PM – 1:30 PM
Quantitative Evaluation of Mitral and Aortic Regurgitation
A. Dillenbeck

1:30 PM – 1:45 PM
Echocardiographic Assessment of Mitral Stenosis
C. West

1:45 PM – 2:00 PM
Echocardiographic Assessment of Aortic Stenosis
N. Edwards

2:00 PM – 2:15 PM
Echocardiographic Assessment of Prosthetic Valves
R. Meece

2:15 PM – 2:30 PM
Question and Answer

1:00 PM – 3:00 PM
Learning Lab: 3D Volume/Function Quantification – Washington B
(Ticketed Event. Additional Fee Required)
Chairs: T. Green, M. Vannan

3:00 PM – 3:30 PM
PC Fireside Chat – Tennessee Ballroom C
Fireside Interviewer: S. Sanders
Fireside Dignitary: G. Marx

3:00 PM – 4:30 PM
Echo Jeopardy – Presidential Ballroom D
Host: J. Gorscan, Co-chair: S. Mankad
Team 1: C. Kramer, C. Taub
Team 2: B. Anderson, V. Sorrell
Team 3: J. Kasprzak, K. Zimmerman

3:00 PM – 4:30 PM
Embolic Stroke – Tennessee Ballroom D
Chairs: J. Aragam, S. Park

3:00 PM – 3:15 PM
Carotid Stenosis, Vertebro-Subclavian Stenosis and Trans-Cranial Doppler
R. Benenstein

3:15 PM – 3:30 PM
Carotid/Aortic Plaque: Characterization and Clinical Significance
A. Johri

3:30 PM – 3:45 PM
Patent Foramen Ovale: Controversy and Closure
K. Addetia

3:45 PM – 4:00 PM
The Role of Echo in Left Atrial Appendage Closure: Current Imaging
M. Saric

4:00 PM – 4:15 PM
TEE and Unusual Cardiac Sources of Emboli
J. Aragam

4:15 PM – 4:30 PM
Question and Answer
3:00 PM – 4:30 PM
E Lab Leadership and Management Summit – Presidential Ballroom A
Chairs: K. Helfinstine, E. Valazquez

3:00 PM – 3:15 PM
How to Herd Cats: Managing the Echo Lab Team
J. Marshall

3:15 PM – 3:30 PM
How to Implement Practice Change
M. Bierig

3:30 PM – 3:45 PM
How to Manage Performance Improvement
S. Phillip

3:45 PM – 4:00 PM
Question and Answer

4:00 PM – 4:30 PM
Panel Discussion: Quality vs. Quantity in the Current Healthcare Environment
Moderator: K. Helfinstine
M. Bierig, S. Lester, J. Marshall, S. Phillip

3:30 PM – 4:30 PM
PC Pediatric Echo Jeopardy – Tennessee Ballroom C
Chairs: M. Brook, D. Harrild

Team Johnny Cash
A. Bhat, J. Lu, B. Richards, G. Satou

Team George Jones
J. Kovalchin, C. McMahon, S. Morris, N. Soni

Team Willie Nelson
A. Dragulescu, S. Drant, J. Kreeger, D. Parra

3:00 PM – 4:30 PM
S Ultrasound in the Detection of Subclinical Disease – Presidential Ballroom B
Chairs: W. Irani, M. Mukherjee

3:00 PM – 3:15 PM
Vascular Ultrasound: Intima-media Thickness, Vascular Compliance, Vaso Vasorum Imaging
N. Hamburg

3:15 PM – 3:30 PM
Screening Echocardiogram in Athletes
S. Litwin

3:30 PM – 3:45 PM
Strain as an Early Warning Sign in Cardiac Disease
T. Marwick

3:45 PM – 4:00 PM
Echo Screening in Genetic and Heritable Diseases
J. DeCara

4:00 PM – 4:15 PM
Population Based Screening in the Developing World
S. Sengupta

4:15 PM – 4:30 PM
Question and Answer

For detailed information, please download the ASE Courses app.
ASE has partnered with the American Association for Physician Leadership (AAPL) to provide leadership training for our physician and allied health members.

**RECEIVE** guidance from ASE leaders on how to apply what you learn to your current and future career goals.

**ENHANCE** your leadership skills to excel in your personal practice as well as being a leader in ASE and other societies.

**LEARN** the fundamentals of leadership in an ever-changing medical environment.

**EXAMINE** and learn about your leadership style and how to put it into action.

For more information, meet with Neil Weissman, MD, FASE, Program Director, at the ASE Booth #424 Sunday and Monday: 9:30 - 10:15 AM

Learn more at ASEcho.org/LeadershipAcademy

**Congenital Heart Disease for the Adult Sonographer – Presidential Ballroom A**  
Chairs: M. King, J. Kreeger

8:00 AM – 8:15 AM  
Introduction to the Segmental Approach  
S. Nay

8:15 AM – 8:30 AM  
Anatomy and Physiology of Cardiac Shunts: Atrial Septal Defect, Ventricular Septal Defect, Patent Ductus Arteriosus  
H. Ko

8:30 AM – 8:45 AM  
Case Example: Evaluation of Tetralogy of Fallot  
N. Soni–Patel

8:45 AM – 9:00 AM  
Case Example: Evaluation of Transposition of the Great Arteries  
H. Carron

9:00 AM – 9:15 AM  
Stress Echocardiography in Congenital Heart Disease  
B. Fey

9:15 AM – 9:30 AM  
Question and Answer

8:00 AM – 9:30 AM  
**Dilemmas in Diastology – Presidential Ballroom B**  
Chairs: J. Oh, M. Quinones

8:00 AM – 8:30 AM  
Diastology Debate  
Pro Guidelines: S. Nagueh  
Con Guidelines: A. Labovitz

8:30 AM – 8:45 AM  
Elderly with Normal Heart  
A. DeMaria

8:45 AM – 9:00 AM  
What Do We Do if There is Co-existent Mitral Valve Disease  
S. Mobasseri

9:00 AM – 9:15 AM  
Atrial Fibrillation  
S. Shrivastava

9:15 AM – 9:30 AM  
Heart Transplant  
G. Aurigemma

8:00 AM – 9:30 AM  
**Evidence Based Echo: From Abstracts to Guidelines – Tennessee Ballroom C**  
Chairs: G. Marx, M. Puchalski

8:00 AM – 8:01 AM  
P1-17: Coronary Anomalies in Patients with Bicuspid Aortic Valve  
M. Fuchs

8:01 AM – 8:02 AM  
P1-18: Speckle Tracking Echocardiography Detects Early Myocardial Dysfunction in Young Patients with Duchenne Muscular Dystrophy  
K. DeWeert

8:02 AM – 8:03 AM  
P1-19: Prognostic Significance of Tissue Doppler Imaging Derived Myocardial Performance Index in Pediatric Patients with Dilated Cardiomyopathy  
L. Wright
8:03 AM – 8:04 AM
P1-20: Impact of Early Versus Late Onset Fetal Atrial Level Restriction on Postnatal Transplant-Free Survival in Hypoplastic Left Heart Syndrome: A Single-Center Study of Fetal Echocardiograms
S. Fuchs

8:04 AM – 8:05 AM
P1-21: Early Fetal Echocardiography Can Identify Most Severe Cardiac Pathology
K. Haberer

8:05 AM – 8:06 AM
P1-22: Left Atrial Strain is Impaired in Childhood Cancer Survivors Exposed to Anthracyclines
R. Loar

8:06 AM – 8:07 AM
P1-23: Intervendor Reproducibility of Global Left Ventricular 2D Speckle Tracking Strain in the Structurally Normal Heart in Infants and Children
S. Ramlogan

8:07 AM – 8:08 AM
P1-24: Hypoplastic Left Heart Syndrome Speck Tracking Echocardiography Atrial Conduit Strain and Strain Rate is Related to Ventricular Diastolic Changes: A Longitudinal Study
L. Lin

8:08 AM – 8:09 AM
P1-25: Inter-Vendor Reproducibility of Two-Dimensional Layer Specific Right Ventricular Global Longitudinal Strain in Children
D. Aly

8:09 AM – 8:10 AM
P1-26: Ventricular Function in a Large Cohort of Healthy, Term Newborns Assessed by Advanced Echocardiography: Establishment of Normal Values and Z-scores
A. Sillesen

8:10 AM – 8:11 AM
P1-27: Right Atroventricular Function and Exercise Performance in Youth with Repaired Tetralogy of Fallot
S. Bhatt

8:11 AM – 8:12 AM
P1-28: Pressure Recovery Corrected Doppler Gradients Accurately Predict Subsequent Catheterization Gradients in Congenital Pulmonic Valve Stenosis: Doppler Echocardiography and Cardiac Catheterization Correlative Study
K. Mowers

8:12 AM – 8:13 AM
P1-29: Congenital Heart Abnormalities Associated with Loss of Function Filamin A Gene Mutations
M. Chen

8:13 AM – 8:14 AM
P1-30: Right Ventricular and Atrial Diastolic Function and their Relation to Impaired Exercise Capacity in Ebstein Anomaly
Y. Akazawa

8:14 AM – 8:15 AM
R. France

8:15 AM – 8:30 AM
The Best Echo Articles of the Past Year
T. Slesnick

8:30 AM – 8:45 AM
TEE Guidelines: What’s Changed? What’s New?
M. Puchalski

8:45 AM – 9:00 AM
3D Echo in Congenital Heart Disease: How Best To Use These Guidelines
D. Roberson

9:00 AM – 9:15 AM
Ultrasound Enhancing Agents (Contrast) Guidelines: Ready For Pediatrics?
S. Kutty

9:15 AM – 9:30 AM
Discussion: What is Next? (Next Set of Guidelines/Scientific Statements That Should Be Developed)

8:00 AM – 9:30 AM
Go with the Flow – Tennessee Ballroom D
Chairs: A. Johri, R. Quiroz

8:00 AM – 8:15 AM
Vascular Ultrasound Council Business Meeting
R. Quiroz

8:15 AM – 8:30 AM
Abstract Update
A. Johri
8:30 AM – 8:42 AM
Severe, Asymptomatic Carotid Stenosis in High Risk Patients: Now What?
R. Eberhardt

8:42 AM – 8:54 AM
Peripheral Vascular Disease Screening
J. Beckman

8:54 AM – 9:06 AM
Should Echocardiography Routinely Screen for Abdominal Aortic Aneurysm? What the Interpreting MD Needs to Know
T. Naqvi

9:06 AM – 9:30 AM
Stump The Masters: Case-based
J. Beckman, N. Hamburg, E. Kim

8:00 AM – 9:30 AM
The Great Debates – Presidential Ballroom D
Chair: R. Martin

8:00 AM – 8:30 AM
The Pandian–Douglas Debate: Stress Echo is the Preferred Modality to Evaluate Chest Pain
PRO: N. Pandian
CON: P. Douglas

8:30 AM – 9:00 AM
Echo Screening in Athletes: Echo Should be Used in Pre—Participation Athletic Screening
PRO: M. Wood
CON: A. Magalski

9:00 AM – 9:30 AM
Strain Should Be a Part of the Comprehensive Echocardiogram
PRO: T. Abraham
CON: I. Kronzon

8:00 AM – 9:30 AM
Chair: A. Nicoara, M. Taylor

8:00 AM – 8:15 AM
Assessment of Mitral Regurgitation: How to Integrate the New Guidelines
M. Taylor

8:15 AM – 8:30 AM
Aortic Stenosis: Incorporate Gradient, Flow and Ejection Fraction
J. Hung

8:30 AM – 8:45 AM
Severe Chronic Secondary Mitral Regurgitation: Replacement for All?
A. Shah

8:45 AM – 9:00 AM
Diastolic Function in the Perioperative Period: New Versus Old Guidelines
M. Swaminathan

9:00 AM – 9:30 AM
Question and Answer

10:00 AM – 12:00 PM
Learning Lab: 3D Cropping – Washington B (Ticketed Event. Additional Fee Required)
Chair: R. Lang, W. Tsang

10:15 AM – 11:15 AM
Introduction of Richard E. Kerber Ethics/Humanitarian Lecture
A. Pearlman

10:17 AM – 10:45 AM
Kerber Lecture: Ethical Challenges in the Practice of Echocardiography: What is Right and How Do We Do It?
J. Kirkpatrick

10:45 AM – 11:00 AM
Chagas Guidelines
H. Acquatella

11:00 AM – 11:15 AM
Chagas Case Discussion
A. Rodrigues

11:15 AM – 11:30 AM
Stress
A. Prado

11:30 AM – 11:45 AM
Sarcoid and Other Zebras
J. Kisslo
10:15 AM – 11:45 AM
Nine for Ninety: Stress Echo with the Experts – Presidential Ballroom D
Chairs: N. Pandian, S. Parashar

10:15 AM – 10:35 AM
Ischemic Heart Disease Cases
S. Mulvagh

10:35 AM – 10:55 AM
Non-Ischemic Heart Disease Cases
K. Koulogiannis

10:55 AM – 11:15 AM
Contrast Cases
Speaker: J. Olson
Panelists: W. Armstrong, N. Fine, S. Sawada

10:15 AM – 11:45 AM
Novel Concepts in Cardio-Oncology – Presidential Ballroom B
Chairs: J. Gardin, M. Scherrer-Crosbie

10:15 AM – 10:30 AM
Multimodality Imaging in Cardio-Oncology: MR/PET
P. Thavendiranathan

10:30 AM – 10:45 AM
Novel Drugs/Immunotherapy/Mechanisms of Cardiac Damage
J. Moslehi

10:45 AM – 11:00 AM
Novel Indices of Cardiac Dysfunction in Cardio-Oncology
M. Scherrer-Crosbie

11:00 AM – 11:10 AM
OA-02: Dexrazoxane Preferentially Mitigates Adverse Changes in Cardiac Structure and Function in Female Children with Sarcoma Receiving High-Dose Anthracycline Therapy
H. Narayan

11:10 AM – 11:25 AM
Don’t Forget About the Pericardium
A. Klein

11:25 AM – 11:40 AM
Long-term Follow Up Imaging; Imaging of the Cancer Survivor
K. Maganti

11:40 AM – 11:45 AM
Question and Answer

10:15 AM – 11:45 AM
Pediatric Interventional Echocardiography – Tennessee Ballroom C
Chairs: D. Harrild, C. McMahon

10:15 AM – 10:30 AM
Patent Ductus Arteriosus Closure with Echocardiographic Guidance
R. Garg

10:30 AM – 10:45 AM
Echo Support for Catheter-based Ventricular Assist Devices
V. Dimas

10:45 AM – 11:00 AM
Echo Guidance for Periventricular Ventricular Septal Defect Closure
A. Bhat

11:00 AM – 11:15 AM
Echo Support of Percutaneous Valve Interventions: Everywhere Except the Right Ventricle Outflow Tract
S. Pedra

11:15 AM – 11:30 AM
What I Need From My Imager: The Importance of Communication
V. Dimas

11:30 AM – 11:45 AM
Question and Answer

10:15 AM – 11:45 AM
Present and Future of Percutaneous Mitral Valve Therapy – Tennessee Ballroom B
Chairs: O. Khalique, G. Mackensen

10:15 AM – 10:30 AM
Present and Future of Percutaneous Mitral Therapy
J. Passeri

10:30 AM – 10:45 AM
Image Guided Therapy with TEE for Mitral Valve-In-Valve (Degenerated Bioprosthetic) or Valve-In-Ring
C. Nyman

10:45 AM – 11:00 AM
Percutaneous Valve in Native Valve with and Without MAC
G. Mackensen
11:00 AM – 11:15 AM
Percutaneous Mitral Valve Repair with the MitraClip Therapy: Outside of A2/P2
I. Kronzon

11:15 AM – 11:30 AM
Percutaneous Repair of the Mitral Valve Other Than MitraClip
D. Shook

11:30 AM – 11:45 AM
Question and Answer

10:15 AM – 11:45 AM
Strain Imaging for the Sonographer – Presidential Ballroom A
Chairs: D. Patel, B. Shivalkar

10:15 AM – 10:30 AM
Strain 101: The Basics
T. Van Houten

10:30 AM – 10:45 AM
Illustrative Strain Cases: Amyloid, Hypertrophic Cardiomyopathy, Chemotherapy
J. Hill

10:45 AM – 11:00 AM
Right Ventricular Strain
L. Sanchez

11:00 AM – 11:15 AM
How to Incorporate Strain Imaging in Your Lab
K. Bradsher

11:15 AM – 11:30 AM
How to Get Reimbursed for Strain
M. Umland

11:30 AM – 11:45 AM
Question and Answer

1:15 AM – 2:45 PM
Achy Breaky Heart: Ischemic Heart Disease – Presidential Ballroom A
Chairs: D. Orsinelli, A. Venkateshvaran

1:15 PM – 1:30 PM
Complications of Myocardial Infarction
R. Harper

1:30 PM – 1:45 PM
Interesting Cases: Mimickers of Ischemic Heart Disease (Apical Ballooning, Myocardial Bridging)
A. Venkateshvaran

1:45 PM – 2:00 PM
Challenges of Using Contrast in Stress Echocardiography
T. Gordon

2:00 PM – 2:15 PM
Multimodality Testing for Coronary Artery Disease: Which Test is Best?
P. Burgess

2:15 PM – 2:30 PM
Spontaneous Coronary Artery Dissection (SCAD)
S. Mulvagh

2:30 PM – 2:45 PM
Question and Answer

1:15 PM – 2:45 PM
Advanced Evaluation of Function (Joint ASE/EACVI Session) – Tennessee Ballroom C
Chairs: T. Bharucha, C. Fleishman

1:15 PM – 1:30 PM
Cardio-Oncology: Should Strain be Performed on All At-Risk Oncology Patients?
W. Border

1:30 PM – 1:45 PM
Cardiac Resynchronization: Picking the Winners
D. Forsha

1:45 PM – 2:00 PM
High Frame Rate Imaging
S. Nyrnes

2:00 PM – 2:15 PM
Strain and Ventricular-Ventricular Interaction in Single Ventricle Physiology
N. Khoo

2:15 PM – 2:30 PM
OA-04: Insights into Mechanisms of Decreasing Cardiac Function in Single Right Ventricle from Novel Three-Dimensional Principal Strain Analysis
T. Sato

2:30 PM – 2:45 PM
Question and Answer
1:15 PM – 2:45 PM
**Chamber Quantification: Beyond Basic Measurements – Tennessee Ballroom D**
*Chairs: R. Lang, T. Zhu*

1:15 PM – 1:30 PM

WASE Study
*F. Asch*

1:30 PM – 1:45 PM

Normal Echo Values in the Korean Population
*S. Park*

1:45 PM – 2:00 PM

Normal Population That Don’t Fit The Guidelines: Pregnancy, Athletes, Liver Disease, Anemia
*C. Taub*

2:00 PM – 2:15 PM

3D: When Do You Use 3D For Heart Chambers
*M. Monaghan*

2:15 PM – 2:30 PM

Poor Reproducibility of Echo Left Ventricular Ejection Fraction
*J. Gorcsan*

2:30 PM – 2:45 PM

Artificial Intelligence
*P. Sengupta*

1:15 PM – 2:45 PM

**Microbubbles: Developing Applications in the Decade Ahead – Presidential Ballroom B**
*Chairs: F. Villanueva, K. Wei*

1:15 PM – 1:30 PM

OA-03: Delayed Enhancement Imaging with Intravenous Definity Droplets to Selectively Enhance the Myocardial Infarct Zone: Correlation with Delayed Enhancement Magnetic Resonance Imaging in a Large Animal Model
*T. Porter*

1:30 PM – 1:50 PM

Thrombolysis
*W. Mathias*

1:50 PM – 2:10 PM

Remote Ischemia Detection
*J. Lindner*

2:10 PM – 2:30 PM

The Diagnostic High MI Impulse-Targeted Therapeutic Applications and Side Effects
*T. Porter*

2:30 PM – 2:45 PM

Question and Answer

1:15 PM – 2:45 PM

**Novel Concepts in Strain (Joint ASE/EACVI Session) – Presidential Ballroom D**
*Chairs: T. Edvardsen, J. Thomas*

1:15 PM – 1:45 PM

Kalman Lecture: Technological Advances Driving a New Era for Tissue Doppler Imaging
*J. D’hooge*

1:45 PM – 2:00 PM

Cardiac Work
*O. Smiseth*

2:00 PM – 2:15 PM

Vendor Standardization
*J. Voigt*

2:15 PM – 2:30 PM

Diastolic Strain
*S. Nagueh*

2:30 PM – 2:45 PM

Stress Testing
*T. Abraham*

1:15 PM – 2:45 PM

**Pregnancy and Cardiovascular Disease – Tennessee Ballroom B**
*Chairs: L. Blauwet, N. Scott*

1:15 PM – 1:30 PM

Normal Changes in Pregnancy
*S. Sengupta*

1:30 PM – 1:45 PM

Complications: Peripartum Cardiomyopathy
*J. Kim*

1:45 PM – 2:00 PM

Coronary Complications of Pregnancies
*M. Wood*
2:00 PM – 2:15 PM
Aortopathies in Pregnancies
A. Albers

2:15 PM – 2:30 PM
Problems With Mechanical Prosthetic Valves In Pregnancy: Is There A Role For Echo?
A. Poppas

2:30 PM – 2:45 PM
Question and Answer

1:00 PM – 3:00 PM
Learning Lab: Myocardial Strain by Speckle Tracking – Washington B
(Ticketed Event. Additional Fee Required)
Chairs: A. Dillenbeck, R. Grimm
Lab Assistants: A. Davis, J. Hill, C. Kramer, S. Philip, M. Rampoldi, B. Roberts, M. Umland, A. Woolf

3:30 PM – 4:45 PM
Better Together: Multi-Institutional Studies – Presidential Ballroom B
Chairs: A. Powell, S. Srivastava

3:30 PM – 3:45 PM
Pediatric Heart Network Echo Z-Score Project: So What’s Actually Normal
L. Lopez

3:45 PM – 4:00 PM
CHSS Anomalous Aortic Origin of Coronary Arteries Cohort: Standardized Acquisition
R. Lorber

4:00 PM – 4:15 PM
ASE’s ImageGuideEcho Registry – The New Frontier
M. Desai

4:15 PM – 4:30 PM
Fetal Heart Society: Lessons Learned
M. Donofrio

4:30 PM – 4:45 PM
OA-05: Longitudinal Change in Echocardiographic Parameters of Cardiac Function in Childhood Cancer Survivors: A Multicenter Study
W. Border

3:30 PM – 4:45 PM
Heart Failure With Preserved Ejection Fraction – Tennessee Ballroom B
Chairs: J. Kisslo, R. Levine

3:30 PM – 3:42 PM
Physiology of Diastole: What is Heart Failure with Preserved Ejection Fraction?
E. Velazquez

3:42 PM – 3:54 PM
Diastolic Stress Test
L. Rodriguez

3:54 PM – 4:06 PM
Echocardiographic Assessment of Hemodynamics
H. Dokainish

4:06 PM – 4:18 PM
Hypertensive Heart Disease
K. Poh

4:18 PM – 4:30 PM
When the Guidelines Fail: What To Do with Discrepant Diastolic Function Data
J. Dent

4:30 PM – 4:45 PM
Question and Answer

3:30 PM – 4:45 PM
I Did Strain, Now What Do We Do with the Results? – Presidential Ballroom B
Chairs: T. Abraham, O. Smiseth

3:30 PM – 3:42 PM
Cases: Cardio-Oncology
N. Mousavi

3:42 PM – 3:45 PM
Cases: Cardio-Oncology
L. Sade

3:45 PM – 3:57 PM
Cases: Right Ventricle and Left Atrial
S. Raissi

3:57 PM – 4:00 PM
Cases: Right Ventricle and Left Atrial
E. Donal

4:00 PM – 4:12 PM
Cases: Normal Ejection Fraction, Normal Heart, Reduced Strain
M. Kinno
4:12 PM – 4:15 PM
Cases: Normal Ejection Fraction, Normal Heart, Reduced Strain
T. Marwick

4:15 PM – 4:27 PM
Cases: Aortic Stenosis, Mitral Regurgitation
R. Matiasz

4:27 PM – 4:30 PM
Cases: Aortic Stenosis, Mitral Regurgitation
S. Nakatani

4:30 PM – 4:42 PM
Cases: Abnormal Strain with Family Medical History of Cardiac Disease
N. Fine

4:42 PM – 4:45 PM
Cases: Abnormal Strain with Family Medical History of Cardiac Disease
V. Amuthan

3:30 PM – 4:45 PM
Prosthetic Valve: Unsavory SAVR Situations – Tennessee Ballroom D
Chairs: S. Pislaru, R. Ronderos

3:30 PM – 3:42 PM
Prosthesis Patient Mismatch
G. Scalia

3:42 PM – 3:54 PM
Bioprosthetic Valve Thrombosis
S. Pislaru

3:54 PM – 4:06 PM
Use of TTE/TEE and Other Modalities in Mechanical Heart Valve Complications
M. Mikolaj

4:06 PM – 4:18 PM
Prosthetic Heart Valves: Guidelines for Management. When Do I Get an Echo?
J. Mills

4:18 PM – 4:30 PM
Quantifying Abnormalities in Prosthetic Abnormalities
W. Zoghbi

4:30 PM – 4:45 PM
Question and Answer

3:30 PM – 3:45 PM
The Essentials of Being a Good Educator – Presidential Ballroom A
Chairs: S. Goldstein, P. Knoll

3:30 PM – 3:45 PM
How to Develop Goals and Objectives
K. Helfinstine

3:45 PM – 4:00 PM
How to Give Effective Feedback
P. Knoll

4:00 PM – 4:15 PM
Innovative Delivery of Education
M. Orsinelli

4:15 PM – 4:30 PM
Competency-Based Education
T. Ryan

4:30 PM – 4:45 PM
Panel Discussion: Educating Across Learners (Fellows, Students, ACS, Staff)
S. Goldstein, Moderator
Panelists: K. Helfinstine, P. Knoll, M. Orsinelli, T. Ryan

5:00 PM – 6:30 PM
Echovation Challenge – Tennessee Ballroom C
Chair: P. Sengupta
Moderator: R. Martin
Learn more about these modules and how they can help your practice. Visit booth #326 in the Exhibit & Poster Hall for a demo and talk one-on-one with the experts who helped create them!

7:00 AM – 7:50 AM

**CL** Attack of the Pericardium: The Jedi Return – Tennessee Ballroom B
Chair: J. Dent

7:00 AM – 7:20 AM
State-of-the-Art Assessment and Treatment of Pericarditis
A. Klein

7:20 AM – 7:40 AM
What’s New in Multimodality Imaging for Pericardial Disease?
R. Janardhanan

7:40 AM – 7:50 AM
Discussion
Panelists: R. Janardhanan, A. Klein

7:00 AM – 7:50 AM

**CL** Cardio-Oncology 101 – Presidential Ballroom D
Moderators: J. Banchs, E. Tucay

7:00 AM – 7:10 AM
Scope of the Problem
J. Plana

7:10 AM – 7:20 AM
What Is the Cardio-Oncology Team? How It Comes Together
J. Banchs

7:20 AM – 7:30 AM
Necessary Workflow Changes: Order Sets, Training, Performing Echo
L. Hua

7:30 AM – 7:40 AM
Interpretation and Reporting: What is Normal Strain?
N. Akhter

7:40 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM

**CL** Comprehensive Assessment and Treatment of Mitral Stenosis – Presidential Ballroom B
Chairs: H. Nesser, K. Poh

7:00 AM – 7:15 AM
Rheumatic, Calcific, and Post-Radiation Mitral Stenosis
A. Omran

7:15 AM – 7:30 AM
Quantitation of Mitral Stenosis at Rest and Stress
W. Katz

7:30 AM – 7:40 AM
Echo Guidance in Percutaneous Interventions for Mitral Stenosis
N. Quader

7:40 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM

**E** How to Apply the Guidelines: Valvular Regurgitation Update – Presidential Ballroom A
Chairs: J. Marshall, W. Zoghbi

7:00 AM – 7:15 AM
Use of Cardiac Magnetic Resonance in Assessment of Valvular Regurgitation
P. Thavendiranathan

7:15 AM – 7:30 AM
How to Evaluate Secondary Mitral Regurgitation: What’s New?
M. Park

7:30 AM – 7:40 AM
Pros and Cons of 3D Echocardiography in Valvular Regurgitation
E. Kruse

7:40 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM

**PC** Pediatrics: The Athlete’s Heart – Tennessee Ballroom C
Chairs: D. Coleman, J. Ganame

7:00 AM – 7:15 AM
Effect of Conditioning on Cardiac Structure and Function
B. Eidem

7:15 AM – 7:30 AM
Differentiating Normal from Cardiomyopathy
S. Menon

7:30 AM – 7:45 AM
Role of Echo vs. MRI
J. Soslow

7:45 AM – 7:50 AM
Question and Answer
7:00 AM – 7:50 AM

**Systemic Disease From Around the World – Tennessee Ballroom D**

Chairs: H. Acquatella, J. Mohan

7:00 AM – 7:15 AM
Eosinophilic Disease
K. Ogunyankin

7:15 AM – 7:30 AM
Systemic Infections: Chagas and Beyond
R. Marcus

7:30 AM – 7:40 AM
Carcinoid Heart Disease
D. Muraru

7:40 AM – 7:50 AM
Question and Answer

8:00 AM – 9:30 AM

**A Fresh Look at Structural Heart Disease – Presidential Ballroom A**

Chairs: K. Horton, R. Siegel

8:00 AM – 8:15 AM
What Is a Structural Heart Disease Program?
R. Jain

8:15 AM – 8:30 AM
Meet Your Structural Heart Team
K. Horton

8:30 AM – 8:45 AM
Pre- and Post-Procedure Imaging of TAVR
J. Warmsbecker

8:45 AM – 9:00 AM
Pre- and Post-Procedure Imaging of TMVR
S. Pislaru

9:00 AM – 9:15 AM
Pre- and Post-Procedure Imaging of Closure Devices
K. Collins

9:15 AM – 9:30 AM
Question and Answer

8:00 AM – 8:15 AM

Ultrasound Contrast and Therapeutic Intervention
S. Kutty

8:15 AM – 8:30 AM
3D Modeling and Enhanced Reality for Surgical Intervention
J. Muniz

8:30 AM – 8:45 AM
Echo Flow Dynamics
W. Mawad

8:45 AM – 9:00 AM
Machine Learning and Image Interpretation
P. Sengupta

9:00 AM – 9:15 AM
OA-06: Disordered Intraventricular Vortex Formation and Increased Energy Loss in Transplanted Hearts is Noted in the Absence of Active Rejection
J. Nyce

9:15 AM – 9:30 AM
Question and Answer

8:00 AM – 9:30 AM

**Multimodality Imaging – Presidential Ballroom B**

Chairs: S. Govind, R. Janardhanan

8:00 AM – 8:15 AM
Economics of Making A Choice
M. Desai

8:15 AM – 8:30 AM
Fusion or Confusion Imaging?
F. Faletra

8:30 AM – 8:45 AM
Multimodality Imaging of the Aorta
S. Goldstein

8:45 AM – 9:00 AM
Assessment of Masses
K. Maganti

9:00 AM – 9:15 AM
When to Consider MRI for Adult Congenital Heart Disease
R. Janardhanan

9:15 AM – 9:30 AM
Question and Answer

8:00 AM – 9:30 AM

**Bench to Bedside – Tennessee Ballroom C**

Chairs: A. Dorfman, W. Lai

8:00 AM – 8:15 AM
Ultrasound Contrast and Therapeutic Intervention
S. Kutty

8:15 AM – 8:30 AM
3D Modeling and Enhanced Reality for Surgical Intervention
J. Muniz

8:30 AM – 8:45 AM
Echo Flow Dynamics
W. Mawad

8:45 AM – 9:00 AM
Machine Learning and Image Interpretation
P. Sengupta

OA-06: Disordered Intraventricular Vortex Formation and Increased Energy Loss in Transplanted Hearts is Noted in the Absence of Active Rejection
J. Nyce

9:15 AM – 9:30 AM
Question and Answer
8:00 AM – 9:30 AM

POCUS: Managing the Unstable Patient –
Tennessee Ballroom B

Chair: A. Hernandez

8:00 AM – 8:15 AM
Evaluating the Patient with Dyspnea
A. Levinson

8:15 AM – 8:30 AM
Point of Care Volume Assessment
S. Nikravan

8:30 AM – 8:40 AM
Question and Answer

8:40 AM – 8:55 AM
Algorithms for the Hypotensive Patient
J. Díaz–Gomez

8:55 AM – 9:05 AM
Algorithms for the Hypoxemic Patient
M. Lanspa

9:05 AM – 9:20 AM
Algorithms for Cardiac Arrest
N. Bughrara

9:20 AM – 9:30 AM
Question and Answer

8:00 AM – 9:30 AM

Value of Echo Summit: The Quality Echo Lab –
Tennessee Ballroom D

Chairs: B. Byrd, D. Wiener

8:00 AM – 8:15 AM
Ensuring Quality in the Echo Lab
M. Malkowski

8:15 AM – 8:30 AM
Quality in Perioperative Echo
G. Mackensen

8:30 AM – 8:45 AM
Appropriate Use of Appropriate Use
R. Bhatia

8:45 AM – 9:00 AM
Imaging and Information Technology Management of the Echo Lab
K. Spencer

9:00 AM – 9:15 AM
A Practical Guide To Peer Review
R. Grimm

9:15 AM – 9:30 AM
Question and Answer

10:15 AM – 11:45 AM

Diastology 1, 2, 3: Assessment of Diastolic Function – Presidential Ballroom D

Chairs: A. Kinsara, J. Nixon

10:15 AM – 10:30 AM
What Do the New Guidelines Say?
B. Popescu

10:30 AM – 10:45 AM
Assessing Diastolic Function in Hypertrophic Cardiomyopathy
S. Lester

10:45 AM – 11:00 AM
Pulmonary Vein Doppler: The Truth Shall be Revealed
G. Pressman

11:00 AM – 11:15 AM
Use and Misuse of Tissue Doppler Imaging
M. Quinones

11:15 AM – 11:30 AM
Importance of Valsalva Maneuver, Left Atrial Size, and Pulmonary Hypertension
G. Nesbitt

11:30 AM – 11:45 AM
Question and Answer
10:15 AM – 11:45 AM
Please Bypass This Heart: Assist Devices – Presidential Ballroom A
Chairs: E. McIlwain, R. Stainback

10:15 AM – 11:45 AM
Overview of Ventricular Assist Device Types
A. Davis

10:15 AM – 10:30 AM
Overview of Ventricular Assist Device Types
A. Davis

10:30 AM – 10:45 AM
How to Image Ventricular Assist Devices (Pre, Post, and Ramp)
M. Rampoldi

10:45 AM – 11:00 AM
Ventricular Assist Device Complications
S. Roemer

11:00 AM – 11:15 AM
Use of Contrast with Assist Devices
J. Warmsbecker

11:15 AM – 11:30 AM
Extracorporeal Membrane Oxygenation
B. Roberts

11:30 AM – 11:45 AM
Question and Answer

10:15 AM – 11:45 AM
Quality Improvement/Education: How Do We Get Better? – Tennessee Ballroom C
Chairs: R. Sachdeva, T. Tacy

10:15 AM – 10:30 AM
Appropriate Use Criteria for Pediatric Echoes: What About Inappropriate Non-ordering?
K. Stern

10:30 AM – 10:45 AM
Integrating Quality Improvement into Workflow of the Echo Lab
A. Parthiban

10:45 AM – 11:00 AM
Resource Utilization: Value vs. Volume
M. Quartermain

11:00 AM – 11:15 AM
Echo Boot Camp: Is Simulator Training the New Standard Of Education?
S. Maskatia

11:15 AM – 11:30 AM
Competency Testing In Pediatric Echocardiography: Are We Making A Difference?
J. Levine

11:30 AM – 11:45 AM
Discussion: Where Should We Be Focusing Our Efforts?
Panelists: J. Levine, S. Maskatia, A. Parthiban, M. Quartermain, K. Stern

10:15 AM – 11:45 AM
Stress Exit from CAD: Stress Echo in Evaluating Non-Ischemic Heart Disease – Presidential Ballroom B
Chairs: L. Badano, P. Pellikka

10:15 PM – 10:35 PM
Stress Echocardiography in Aortic Stenosis
B. Lindman

10:35 AM – 10:55 AM
Stress Echo in Hypertrophic Obstructive Cardiomyopathy
S. Sawada

10:55 AM – 11:15 AM
Stress Echo in Mitral Regurgitation Evaluation
L. Rodriguez

11:15 AM – 11:35 AM
Stress Echo in Pulmonary Hypertension
N. Fine

11:35 AM – 11:45 AM
Question and Answer

10:15 AM – 11:45 AM
Value of Echo Summit: Transitioning from Fee for Service to Value-based Reimbursement – Tennessee Ballroom D
Chairs: M. Main, M. Picard

10:15 AM – 10:40 AM
Affordable Care Act in 2017: The Impact of What Endures
L. Aronson, D. Rosen

10:40 AM – 11:00 AM
MACRA in the Echo Lab
C. Biga

11:00 AM – 11:15 AM
Strategies to Reduce Low Value Care
G. Rose

11:15 AM – 11:30 AM
The ImageGuideEcho Registry
S. Nagueh
10:15 AM – 11:45 AM
**Venous Thromboembolism: From the Popliteal Vein to the Pulmonary Artery – Tennessee Ballroom B**
Chairs: R. Eberhardt, P. Gutierrez-Fajardo

10:15 AM – 10:30 AM
The Forgotten Half: When Do We Need To Scan Below The Knee?
R. Eberhardt

10:30 AM – 10:45 AM
Echo in the Patient with Acute Pulmonary Embolism: Beyond McConnell’s Sign
L. Rudski

10:45 AM – 11:00 AM
Right Ventricular Failure/Chronic Post Pulmonary Embolism Complications: Role of Echo
P. Gutierrez-Fajardo

11:00 AM – 11:15 AM
Ultrasound After the Initial Venous Thromboembolic Event: When and for Whom?
B. Wells

11:15 AM – 11:30 AM
Echocardiography and CT in the Patient with Post-Pulmonary Embolism Pathology: PB and J, Not Oil and Water
B. Freed

11:30 AM – 11:45 AM
Question and Answer

1:15 PM – 2:45 PM
**Defining and Detecting Pericardial Pathology/ The Painful Pathologic Pericardium – Tennessee Ballroom D**
Chairs: B. Hoit, S. Wilansky

1:15 PM – 1:30 PM
Anatomy and Physiology of the Pericardium
N. Pandian

1:30 PM – 1:45 PM
Differentiation of Restrictive from Constrictive
T. Welch

1:45 PM – 2:00 PM
Multimodality Approach to Pericardial Disease
J. Cavalcante

2:00 PM – 2:15 PM
Treatment Modalities and Follow Up Imaging Recommendations
L. Mendes

2:15 PM – 2:30 PM
Pericardiocentesis Echo Guided
A. Rabischoffsky

2:30 PM – 2:45 PM
Question and Answer

1:15 PM – 2:45 PM
**Focus on the Forgotten Valves: Right Heart Valve Disease – Presidential Ballroom B**
Chairs: A. Bailey, S. Park

1:15 PM – 1:30 PM
2D and 3D Assessment of Tricuspid Valve Anatomy
D. Muraru

1:30 PM – 1:45 PM
Spectrum of Tricuspid Valve Pathology
L. Sade

1:45 PM – 2:00 PM
Difficulties with Tricuspid Regurgitation Quantification
A. Kelsey

2:00 PM – 2:15 PM
Repair, Replacement, and Interventions for the Tricuspid Valve
J. Puthumana

2:15 PM – 2:30 PM
Pulmonic Pathology Potpourri
M. King

2:30 PM – 2:45 PM
Question and Answer

1:15 PM – 2:45 PM
**Oral Abstracts – Tennessee Ballroom C**
Chairs: C. Fleishman, M. Puchalski

1:15 PM – 1:30 PM
OA-07: Challenges with LV Functional Parameters: The Pediatric Heart Network Normal Echocardiogram Database
P. Frommelt
1:30 PM – 1:45 PM
OA-08: Persistence of Right Ventricular Dysfunction and Morphometry in Preterm Infants through One Year of Age: Cardiac Phenotype of Prematurity
P. Levy

1:45 PM – 2:00 PM
OA-09: Evaluation of Left Ventricular Outflow Gradients During Staged Exercise Stress Echocardiography Helps Differentiate Patients with Hypertrophic Cardiomyopathy from Athletes and Normal Subjects
M. Gaitonde

2:00 PM – 2:15 PM
OA-10: Serial Deformation Assessment Identifies Hypoplastic Left Heart Syndrome Infants at Risk for Cardiac Mortality and Morbidity: A Pilot Study
J. Colquitt

2:15 PM – 2:30 PM
OA-11: Late Gestation Predictors of a Postnatal Biventricular Circulation after Fetal Aortic Valvuloplasty
M. Beattie

2:30 PM – 2:45 PM
OA-12: Echocardiographic Surveillance in Children after Tetralogy of Fallot Repair: Adherence to Guidelines?
V. Annavajjhala

1:15 PM – 2:45 PM
Strain in Heart Failure (Joint ASE/JSE Session) – Presidential Ballroom D
Chairs: S. Nakatani, A. Pearlman

1:15 PM – 1:35 PM
Strain in Heart Failure: An Overview
S. Nakatani

1:35 PM – 1:50 PM
Strain in Heart Failure with Reduced Ejection Fraction (HFrEF)
J. Gorcsan

1:50 PM – 2:05 PM
Historical Changes of Dyssynchrony Assessment: Evolution or Elimination?
T. Arita

2:05 PM – 2:20 PM
Strain in Heart Failure with Preserved Ejection Fraction (HFpEF)
S. Shah

2:20 PM – 2:35 PM
The Emerging Role of 3D Speckle Tracking and Right Ventricular Strain in Pulmonary Hypertension
H. Tanaka

2:35 PM – 2:45 PM
Question and Answer

1:15 PM – 2:45 PM
The Brian Haluska Sonographer Research Award Competition – Presidential Ballroom A
Chairs: T. Abraham, M. Bremer, L. Hua, M. Scherrer-Crosbie

1:15 PM – 1:25 PM
Introduction
T. Marwick

1:25 PM – 1:35 PM
SIA-1: Pulmonary Artery Acceleration Time is a Poor Estimation of Severity of Pulmonary Hypertension in Pediatric Patients
C. Cassidy

1:35 PM – 1:45 PM
SIA-2: Evaluation of 3D Echocardiography for Assessment of Right Ventricular Volume & Comparison with Cardiac Magnetic Resonance Imaging in Pediatric Patients
K. Thorson

1:45 PM – 1:55 PM
SIA-3: Feasibility of Contrast Echocardiography to Assess Right Ventricular Size and Function
J. Pereira

1:55 PM – 2:05 PM
SIA-4: The Addition of Subdiaphragmatic Doppler to Assess Vascular Steal Phenomenon in Hemodynamically Significant PDAs
J. Guthrie

2:05 PM – 2:20 PM
Getting Started with Research
B. Roberts

2:20 PM – 2:35 PM
How to Critically Analyze a Research Article
M. Picard

2:35 PM – 2:45 PM
Recognition of Finalists, Winner Announcement
L. Hua
## MONDAY, JUNE 25 SCHEDULE

### 1:15 PM – 2:45 PM

#### The Enhancing Agent: Clinical Utility in 2018

- **Location:** Tennessee Ballroom B
- **Chairs:** H. Leong-Poi, J. Lindner

1:15 PM – 1:30 PM
Image Optimization
- **Presenter:** J. Olson

1:30 PM – 1:45 PM
Stress Lab: Incremental Value of Left Ventricular Cavity Opacification
- **Presenter:** H. Becher

1:45 PM – 2:00 PM
Stress Lab: What Does Perfusion Add?
- **Presenter:** K. Wei

2:00 PM – 2:15 PM
Contrast Use in the Critical Care Setting
- **Presenter:** M. Main

2:15 PM – 2:30 PM
Outside the Stress Lab: Microvascular Perfusion in Tumor, Post Myocardial Infarction, Early Disease Detection
- **Presenter:** R. Senior

2:30 PM – 2:45 PM
Question and Answer

### 3:30 PM – 5:30 PM

#### Arthur E. Weyman Young Investigator’s Award Competition and 19th Annual Feigenbaum Lecture

- **Location:** Presidential Ballroom D
- **Chairs:** R. Lang, M. Scherrer-Crosbie
- **Judges:** H. Leong-Poi, S. Nakatani, B. Popescu, V. Rigolin, A. Weyman

3:30 PM – 3:35 PM
Welcome & Introduction of Judges
- **Presenter:** M. Scherrer-Crosbie

3:35 PM – 3:50 PM
YIA-1: Extracting Knowledge from Geometric Shape of Echocardiography Data: Isolating Phenotypic Traits within the Systolic-Diastolic Dysfunction Continuum
- **Presenter:** M. Tokodi

3:50 PM – 4:05 PM
YIA-2: Mid-Wall Fractional Shortening in Aortic Stenosis Patients With or Without Reduced Ejection Fraction
- **Presenter:** S. Ito

4:05 PM – 4:20 PM
YIA-3: An Experimental Series Investigating the Effects of Hyperinsulinemic Euglycemia on Myocardial Blood Flow Reserve in Healthy Individuals and on Perfusion Defect Size in Patients Presenting with Acute Myocardial Infarction
- **Presenter:** M. Nam

4:20 PM – 4:35 PM
YIA-4: Endothelial Cell Repair Biophysics During Ultrasound and Microbubble Sonoporation
- **Presenter:** B. Heffield

4:35 PM – 4:40 PM
Concluding Remarks
- **Presenter:** M. Scherrer-Crosbie

4:40 PM – 5:00 PM
Feigenbaum Lecture: Echocardiographic Insights into the Stressed Right Ventricle: A Whole Hearted Story
- **Presenter:** M. Friedberg

5:00 PM – 5:05 PM
Recognition of Feigenbaum Lecturer, Presentation of Plaque, Concluding Remarks
- **Presenter:** H. Feigenbaum

5:05 PM – 5:23 PM
World Alliance of Societies of Echocardiography (WASE) Normal Values Study
- **Presenter:** F. Asch

5:23 PM – 5:25 PM
ASE Foundation Lecturer Concluding Remarks
- **Presenter:** H. Leong-Poi

5:25 PM – 5:30 PM
Presentation of YIA Plaques and Winner Announcement
- **Presenter:** A. Weyman
Lambda P9 from Whale Imaging is a versatile cardiovascular ultrasound system offering superior image quality, user-friendly workflow and great value.

Contact our sales support now to learn more.

ASEUniversity.org
7:00 AM – 7:50 AM  
**CL** Assessment of Mechanical Assist Devices –  
Presidential Ballroom B  
Chairs: J. Kirkpatrick, R. Stainback

7:00 AM – 7:12 AM  
Management of Ventricular Assist Devices Therapy  
J. Estep

7:12 AM – 7:24 AM  
Echo in Guiding Percutaneous Assist Devices (Impella/ 
Extracorporeal Membrane Oxygenation)  
P. Kumar

7:24 AM – 7:36 AM  
Complications of Mechanical Assist Devices  
Y. Topilsky

7:36 AM – 7:50 AM  
Question and Answer

7:00 AM – 7:50 AM  
**PC** Case Competition – Tennessee Ballroom C  
Chairs: S. Drant, B. Soriano

7:00 AM – 7:12 AM  
CC-01: Double Choker: Double Aortic Arch with Bilateral Aortic 
Coarctation Associated with Complex Atrio-Ventricular Canal 
Defect and Heterotaxy-Asplenia Syndrome  
C. Dixon, M. Lewin (Mentor)

7:12 AM – 7:24 AM  
CC-02: Iatrogenic Anomalous Superior Vena Cava Draining 
into Left Atrium: Role of Echocardiography in Conjunction with 
Multimodality Imaging in Diagnosis and Management  
T. Jain, G. Shirali (Mentor)

7:24 AM – 7:36 AM  
CC-03: Umbilical Venous Pulsations Associated with a Benign 
Arrhythmia in Utero  
J. Cohen, M. Frommel (Mentor)

7:36 AM – 7:48 AM  
CC-04: Multimodality Imaging of a Very Rare Combination of 
Cor Triatriatum, Cleft Mitral Valve, Sinus Venosus-Like Defect 
and Anomalous Coronary Sinus Drainage in a Patient with Prior 
Surgically Repaired Atrial Septal Defect  
Q. Liu, G. Lui (Mentor)

7:48 AM – 7:50 AM  
Question and Answer

7:00 AM – 7:50 AM  
**CL** Hitting the Hot Topics: Post MI Complications –  
Tennessee Ballroom D  
Chairs: A. Kinsara, T. Ryan

7:00 AM – 7:12 AM  
Systolic/Diastolic Function and Prognosis  
S. Mayer

7:12 AM – 7:24 AM  
Microvascular Assessment  
B. Davidson

7:24 AM – 7:36 AM  
Mechanical Complications  
L. Marcoff

7:36 AM – 7:50 AM  
Question and Answer

7:00 AM – 7:50 AM  
**E** Hot Topics in Peripheral Artery Disease –  
Tennessee Ballroom B  
Chairs: R. Quiroz, B. Wells

7:00 AM – 7:15 AM  
Pitfalls of Renovascular/Fibromuscular Dysplasia Imaging  
B. Wells

7:15 AM – 7:30 AM  
Dual Credentialing (Echo/Vascular) for Sonographers  
B. Fowler

7:30 AM – 7:45 AM  
Complications of Arterial Access (TAVI/Cath)  
R. Benenstein

7:45 AM – 7:50 AM  
Question and Answer

7:00 AM – 7:50 AM  
**E** How to Apply the Guidelines: Contrast (UEA) 
Update – Presidential Ballroom A  
Chairs: J. Olson, T. Porter

7:00 AM – 7:10 AM  
Available Agents and Indications  
A. Woolf

7:10 AM – 7:20 AM  
Technical Tips for Imaging Challenges  
J. Schaaf
TUESDAY, JUNE 26 SCHEDULE

7:20 AM – 7:30 AM
Left Ventricular Cavity Opacification vs. Perfusion
J. Olson

7:30 AM – 7:40 AM
Contrast Use in Pediatric Patients
B. Byrd

7:40 AM – 7:50 AM
Question and Answer

7:00 AM – 7:50 AM
The Athlete’s Heart – Presidential Ballroom D
Chairs: J. Puthumana, M. Wood

7:00 AM – 7:15 AM
Physiologic Changes with Athletic Training and Differentiating It from Pathology
A. Zielinski

7:15 AM – 7:30 AM
Athlete’s Heart vs. Hypertrophic Cardiomyopathy: Twins Separated at Birth?
D. Phelan

7:30 AM – 7:45 AM
Anomalous Coronaries in Athletes: Screening, Treatment
M. Desai

7:45 AM – 7:50 AM
Question and Answer

8:00 AM – 9:30 AM
Developing an Echo Career: Finding Your Niche – Tennessee Ballroom D
Chairs: A. Labovitz, M. Umland

8:00 AM – 8:15 AM
Opportunities in Cardio-Oncology
J. Plana

8:15 AM – 8:30 AM
The Importance of a Women’s Heart Disease Specialty
M. Wood

8:30 AM – 8:45 AM
Advanced Valve Team
S. Kort

8:45 AM – 9:00 AM
Sonographer Preparation for Advanced Practice and Lab Management
M. Bierig

9:00 AM – 9:15 AM
Advanced Training Document and Need for Multimodality
T. Ryan

9:15 AM – 9:30 AM
Question and Answer

8:00 AM – 9:30 AM
Don’t Forget to Remember Me: Right Heart Assessment – Presidential Ballroom A
Chairs: A. Dillenbeck, N. Schiller

8:00 AM – 8:15 AM
Tricuspid and Pulmonary Valve Disease
L. Bienvenu

8:15 AM – 8:30 AM
Echo Evaluation of Pulmonary Hypertension
R. Harper

8:30 AM – 8:45 AM
Assessment of the Right Ventricle in Congenital Heart Disease
N. Soni-Patel

8:45 AM – 9:00 AM
Multimodality Imaging of the Right Ventricle (3D and CMR)
M. Garcia

9:00 AM – 9:15 AM
Contrast for the Right Ventricle
M. Park

9:15 AM – 9:30 AM
Question and Answer

8:00 AM – 9:30 AM
Fetal Symposium – Tennessee Ballroom C
Chairs: L. Hornberger, W. Tworetzky

8:00 AM – 8:15 AM
Improving Prenatal Detection of Congenital Heart Disease
N. Pinto

8:15 AM – 8:30 AM
1st Trimester Screening: An Update
E. Sinkovskaya

Experts in the field hold the designation of FASE.

Nidhish Tiwari, MD, FASE
Associate Director
North Central Bronx Hospital
Bronx, NY

Cindy Laliberte,
RDCS, FASE
Supervisor, Echo Lab
Akron Children’s Hospital
Akron, OH

Joshua D. Quick, MD, FASE
Cardiothoracic Anesthesiologist
VA Connecticut Healthcare System
West Haven, CT

Melissa Tracy,
MD, FASE
Associate Professor of Medicine
RUSH University Medical Center
Chicago, IL

Yvette Carvallo,
RDCS, RVS, FASE
Lead Cardiovascular Sonographer
Overlook Medical Center
Summit, NJ

Massimiliano Meineri, MD, FASE
Staff Anesthesiologist, Director Perioperative TEE
Toronto General Hospital
Toronto, ON, Canada

Alison White, BSc, MSc,
DMU (cardiac), AMS, SFHEA, FASE
Program Director and Senior Lecturer
Griffith University
Brisbane, Queensland, Australia

 Malone Melton
Associate Professor
University of Wisconsin, Madison
Madison, WI

Want to achieve the FASE designation? All echo specialists, in addition to cardiologists, can apply for FASE at ASEcho.org/FASE.

Come to the ASE Exhibit Booth 424 to learn more about applying for FASE.

FASE LOUNGE
Presidential Boardroom A, Mezzanine Level
Saturday, June 23 ...... 9:00 AM – 4:00 PM
Sunday, June 24........ 9:00 AM – 4:00 PM
Monday, June 25....... 9:00 AM – 4:00 PM
Tuesday, June 26 ...... 9:00 AM – 2:00 PM
GOOD COMPANIES. GOOD WORKS.

ASE would like to thank our Industry Roundtable members.

Visit our Industry Roundtable Partners at ASE’s 29th Annual Scientific Sessions.
SPECIAL EVENTS AND NETWORKING OPPORTUNITIES

FRIDAY, JUNE 22

SCIENCE & TECHNOLOGY THEATER
7:00-8:30 PM
EXHIBIT & POSTER HALL

Passion and Precision in Echocardiography
Presented by Siemens Healthineers

Join us for a Happy Hour and Hall of Fame cases about how to use echocardiography to make diagnoses and therapies more precise. Refreshments are provided by ASE and are included in all Scientific Sessions registration fees, but space and food are first come, first served. These sessions are not part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed by or affiliated with ASE.

SATURDAY, JUNE 23

ASEF CARDIOVASCULAR CHALLENGE
ASEF BOOTH, PRESIDENTIAL LOBBY

Compete with your feet and get moving with the ASE Foundation Cardiovascular Challenge. Sign up to participate at the ASEF Booth in the Presidential Lobby, then record your steps taken every day and log them at the booth. The person with the most overall steps will win a $200 Amazon gift card, second place will receive a $100 Amazon gift card, and the person with the third highest step count will receive a limited edition ASEF hat. The winners will be announced Monday evening, June 25th during the Member Reception in the Exhibit & Poster Hall.

Special thanks to our 2018 Cardiovascular Challenge sponsors, CAE Healthcare, Canon Medical Systems USA, Inc., Esaote North America, Inc., Lantheus Medical Imaging, Inc., and Studycast, by Core Sound Imaging, Inc.

IMAGES FROM THE HEART GALLERY

A special curated showcase of photographs will be on display from Saturday - Monday. View the world through the eyes and photos of ASE members taken while they travelled the world to participate in various medically-related outreach events. Many photos will be available to take home with a donation to the ASE Foundation. Stop by the ASE Foundation booth to experience these awe-inspiring photos!

ASE AWARDS PRESENTATION AND 29TH ANNUAL EDLER LECTURE
8:00 – 9:30 AM
PRESIDENTIAL BALLROOM D

ASE’s Immediate Past President, Allan L. Klein, MD, FASE, Cleveland Clinic, Cleveland, Ohio, will present “Dermatology of the Heart: Tales from the Pericardial Sac” as the 29th Annual Edler Lecture on Saturday morning, June 23, during the Awards Presentations and Edler Lecture Plenary Session. Dr. Klein is Professor of Medicine at Lerner College of Medicine of Case Western Reserve University. He was the Director of Cardiovascular Imaging Research for over 20 years and is currently the Director of the Center for the Diagnosis and Treatment of Pericardial Diseases. Dr. Klein is also a staff cardiologist in the Section of Cardiovascular Imaging, the Robert and Suzanne Tomsich Department of Cardiovascular Medicine, at the Sydell and Arnold Miller Family Heart & Vascular Institute at Cleveland Clinic. Created in 1990, the annual Edler Lecture honors the founder of echocardiography, Dr. Inge Edler.

LIFETIME ACHIEVEMENT AWARD

The ASE Lifetime Achievement Awards recognize individuals who have had a lifetime of outstanding achievements in the field of cardiovascular ultrasound and have served as a role model through service, research and teaching. These individuals have a career in cardiovascular ultrasound spanning at least 25 years and are recognized at local, national and international levels.

Navin C. Nanda, MD, FASE, The Kirklin Clinic, University of Alabama Health Services Foundation and University of Alabama at Birmingham, Birmingham, Alabama has been named the 2018 Physician Lifetime Achievement Award recipient. Dr. Nanda has been a pioneer in echo education since the beginning of his career and has published 13 books, and over 500 original manuscripts. Dr. Nanda formed the International Society of Cardiovascular Ultrasound in 1991 to promote an exchange of ideas and information among members of various countries. In 1994, he inaugurated the first World Congress of Echocardiography and...
Vascular Ultrasound in Nice, France, where faculty from all over the world gathered to educate and learn about various ultrasound topics. This Congress was subsequently held in 1996, 1998, 2000-2017 in a different country each year and has been highly successful. Over 23,000 combined participants attended these Congresses representing over 70 countries throughout the world.

**MERITORIOUS SERVICE AWARD**

ASE is pleased to recognize Sherif F. Nagueh, MD, FASE, Methodist DeBakey Heart and Vascular Center, Houston, Texas as the 2018 recipient of the Meritorious Service Award that recognizes individual members for their substantial and generous efforts to the Society’s betterment. Dr. Nagueh is a dedicated ASE volunteer having served as chair and member of many ASE committees, on the ASE Board of Directors 2007-2010, and then as Treasurer, and chair of the Finance Committee, 2012-2015. Currently, he serves as chair of the Registry Committee playing a critical role in designing ImageGuideEcho™ which provides a framework to support echo labs committed to improving quality and outcomes in their laboratories. Dr. Nagueh is also a talented researcher who performed groundbreaking studies demonstrating the utility of Doppler to measure diastolic function and to estimate left ventricular filling pressure. He subsequently chaired both of ASE’s diastolic function guidelines (2009 and 2016) that brought diastolic function to the forefront of echocardiography. As a result, diastolic function reporting is now necessary for an echo exam/report to be considered complete. Dr. Nagueh’s dedication to research has shown through in his commitment to serve as chair, or on the writing group, of many other ASE guidelines.

**RICHARD POPP EXCELLENCE IN TEACHING AWARD**

Recognized as a role model, mentor, and teacher who finds reward in seeing the success of his trainees and mentees more than his own personal achievements, Theodore P. Abraham, MD, FASE, University of California San Francisco Medical Center, San Francisco, California, has been named the 18th annual recipient of the Richard Popp Excellence in Teaching Award. Dr. Abraham has a true talent for making the difficult seem easy and understandable. He has impacted many young physicians as well as cardiac sonographers who have trained under him. This award is given in honor of ASE’s second president, Richard L. Popp, MD, FASE, and recognizes physicians who epitomize the ideal qualities possessed by a mentor and role model.

**EXCELLENCE IN TEACHING IN PEDIATRICS AWARD**

Meryl Cohen, MD, FASE, Children’s Hospital of Philadelphia, Philadelphia, Pennsylvania, is being honored as the 2018 Excellence in Teaching in Pediatrics Awardee. Dr. Cohen is a gifted physician with expertise in fetal echocardiography and TEE, and is a fierce advocate for trainee and faculty education. She instituted several teaching sessions that helped mold education at CHOP, but also spends a significant amount of time traveling to share her knowledge worldwide. Dr. Cohen does not just lead by example, she encourages others to follow in her footsteps. Established in 2005, this biennial award recognizes ASE members for their exceptional commitment and skill mentoring students, serving as a role model for the profession, and teaching pediatric echocardiography.

**CARDIOVASCULAR SONOGRAPHER DISTINGUISHED TEACHER AWARD**

Priscilla Peters, BA, RDCS, FASE, Cooper University Hospital, Camden, New Jersey, has been named the 14th recipient of the Cardiovascular Sonographer Distinguished Teacher Award.

Priscilla is an extraordinary sonographer who has made a significant impact on the careers of many sonographers and cardiology fellows-in-training across the United States and beyond. She has not only served as a teacher but also has been a great role model. Her dedication to education is remarkable. This award is given every other year and recognizes an active sonographer instructor who is attentive to cardiovascular sonography professional values and who exhibits values of leadership and dedication to the field of echocardiography for past, current, and future cardiovascular sonographers.
OUTSTANDING ACHIEVEMENT IN PERIOPERATIVE ECHOCARDIOGRAPHY AWARD

Jonathan B. Mark, MD, Veterans Affairs Medical Center and Duke University Medical Center, Durham, North Carolina, has been named the 6th recipient of the Outstanding Achievement in Perioperative Echocardiography Award. Dr. Mark is known as an expert in perioperative echocardiography from the clinical standpoint as well as a lecturer and educator. He served on the writing group for the ASE/SCA Guidelines for Performing a Comprehensive Intraoperative Multiplane Transesophageal Examination. This document continues to serve as a reference for those learning to perform perioperative TEE. The Council recognizes an individual who has made significant clinical, research, or educational contributions to the development of the field of perioperative echocardiography with the presentation of this award.

MENTORSHIP AWARD

ASE recognizes Linda D. Gillam, MD, FASE, Atlantic Health System, Morristown, New Jersey, and Thomas Jefferson University in Philadelphia, Pennsylvania as the 2018 Mentorship Award recipient. Dr. Gillam is dedicated to identifying, supporting, and promoting young members of ASE who show potential for leadership. In particular, she is a huge advocate for the promotion of women in leadership positions and assuring gender diversity in all of ASE’s programs and initiatives. This award recognizes a senior physician or sonographer who has demonstrated exceptional mentorship within ASE. Unlike other awards, the Mentorship Award specifically acknowledges individuals who helped younger members advance within this Society and thus cultivated ASE’s future leaders.

HONORARY FASE

Each year, ASE selects one or more colleagues living outside the United States to receive the special designation of Honorary Fellow of the American Society of Echocardiography. In 2018, we are pleased to recognize the following as Honorary FASE:

Ravi R. Kasliwal, MBBS, MD, DM, FASE
Medanta - The Medicity Hospital
Gurgaon, Haryana, India

Arnaldo Rabischoffsky, MD, FASE
Pro Cardiaco Hospital
Rio de Janeiro, Brazil

Tiangang Zhu, MD, FASE
People’s Hospital of Peking University
Beijing, China

These new FASE designees join an impressive list of 23 other echocardiography luminaries who have been presented this special honor. Some were recognized for their innovations, others for their leadership. The entire echo community has benefited from their science and their friendship. Because these recipients include FASE behind their names, they serve as ambassadors for ASE throughout the world. All three will be honored during the ASE Awards Presentation on Saturday morning.

CHALK TALKS

9:30 – 10:00 AM AND 2:30 – 3:00 PM
PRESIDENTIAL CHAMBER B

New this year, two additional opportunities to learn from the luminaries. During the morning break, Antonio Hernandez, MD and Robert Ratzlaff, DO, will discuss POCUS: Ask the Non-Cardiologist. The afternoon break will feature Richard Wright, MD, FACC, discussing Value, Quality, and the Importance of Advocacy: The Holy Trinity of Echocardiography.

SCIENCE & TECHNOLOGY THEATER

11:30 AM – 1:00 PM
EXHIBIT & POSTER HALL
Who Benefits From the Use of Contrast Echocardiography?
Presented by Lantheus Medical Imaging, Inc.

Join expert faculty in an interactive panel discussion on contrast echocardiography followed by a moderated Q&A session.

Lunch is provided by ASE and is included in all Scientific Sessions registration fees, but space and food are first come, first served. These sessions are not part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed by or affiliated with ASE.

#ASE2018
**TWEET UP**
4:30 – 6:30 PM  
EXHIBIT & POSTER HALL

Are you active on Twitter and want to meet others who are actively using Twitter to share information? Join us for the first ever Tweet Up during the President’s Reception. Don’t miss this opportunity to connect, in person, with the people you have met virtually through Twitter. Follow @ASE360 for updates on this event.

**PRESIDENT’S RECESSION**
4:30 – 6:30 PM  
EXHIBIT & POSTER HALL

All attendees are invited to celebrate ASE 2018 at the President’s Reception, hosted by ASE President, Vera Rigolin, MD, FASE. This is an opportunity to network with colleagues and friends while learning more about the newest equipment and services in the cardiovascular field. Over 50 exhibitors will be showcasing their products. Complimentary hors d’oeuvres and cocktails will be available at many stations throughout the hall. Admission is included in your registration fee, and guest tickets can be purchased during the registration process.

**SCIENCE & TECHNOLOGY THEATER**
6:30 PM – 8:00 PM  
EXHIBIT & POSTER HALL

Challenging the Status Quo: 3D Imaging and Diagnosis  
*Presented by Hitachi Healthcare*

Experience Hitachi Healthcare’s Imaging Insiders 2018 on June 23rd at 6:30, as we present Challenging the Status Quo: 3D Imaging and Diagnosis with topics from Dr. Partho Sengupta and Dr. Lissa Sugeng that will make you think differently about how you use 3D imaging and analysis.

Refreshments are provided by Hitachi Healthcare and are included in all Scientific Sessions registration fees, but space and food are first come, first served. These sessions are not part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed by or affiliated with ASE.
**SPECIAL EVENTS AND NETWORKING OPPORTUNITIES**

**CHALK TALKS**
9:30 – 10:15 AM AND 2:45 – 3:30 PM
EXHIBIT & POSTER HALL

Have clinical questions? This is your opportunity to get answers from luminaries in the field of echo in an intimate setting. During the morning break, Erwan Donal, MD, PhD, will be available to answer all of your questions about Strain Imaging. The afternoon break will be dedicated to the Valve Guidelines with Judy Hung, MD, FASE.

**IMAGEGUIDE REGISTRY INFORMATION SESSIONS**
10:00-10:45 AM
ImageGuide Registry Overview and Q&A
Sherif Nagueh, MD, FASE and Peter Tilkemeier, MD, FASNC

1:45-2:30 PM
ImageGuide Echo & Innovation: How the Registry Impacts the Future of the Echo Field
Marielle Scherrer-Crosbie, MD, PhD, FASE and David Wiener, MD, FASE

2:45-3:30 PM
ImageGuide Echo & Data Collection: How the Registry Captures and Uses Data for Quality Improvement
James Kirkpatrick, MD, FASE

**RICHARD E. KERBER ETHICS/HUMANITARIAN LECTURE**
10:15 – 11:45 AM
TENNESSEE BALLROOM D

The ASE Foundation is proud to recognize James Kirkpatrick, MD, FASE from the University of Washington Medical Center in Seattle, Washington as the inaugural Richard E. Kerber Ethics/Humanitarian Lecturer. This annual lectureship has been established in memory of ASE Past President Richard E. Kerber, MD, FASE, who passed away in November of 2016. Dr. Kerber championed issues of morality and ethics and how medicine fits into the broader world. To honor his legacy, this annual lectureship will feature an ethical dilemma or humanitarian patient care activity. Dr. Kirkpatrick will present his lecture entitled “Ethical Challenges in the Practice of Echocardiography: What is Right and How Do We Do It?” during the Dilated Cardiomyopathies session.

**SCIENCE & TECHNOLOGY THEATER**
11:45 AM – 1:15 PM
EXHIBIT & POSTER HALL

The MR Decision Pathway: The Field Guide to Identification, Quantification and Treatment
Presented by Abbott

Expert Consensus Decision Pathway on the Management of Mitral Regurgitation and the role of imagers in the delivery of care. Using a case-based approach, we will review MR etiology and quantification. Patient selection for transcatheter mitral valve repair will also be discussed.

Lunch is provided by ASE and is included in all Scientific Sessions registration fees, but space and food are first come, first served. These sessions are not part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed by or affiliated with ASE.

**2018 KALMANSON LECTURE**
1:15 – 2:45 PM
PRESIDENTIAL BALLROOM D

The ASE Foundation is honored to recognize Jan D’hooge, MSc, PhD, Katholieke Universiteit Leuven, Leuven, Belgium, as the 2018 Kalmanson Lecturer. Established in memory of Professor Daniel Kalmanson, a pioneer in the use of Doppler echocardiography, and funded through a grant from the International Cardiac Doppler Society (ICDS), this annual lectureship provides a forum for honoring worthy investigators while promoting research and education in cardiovascular Doppler ultrasound. Dr. D’hooge will present his lecture entitled “Technological Advances Driving a New Era for Tissue Doppler Imaging” during the Novel Concepts in Strain Joint ASE/EACVI symposium.
FELLOWS AND EARLY CAREER MEMBER NETWORKING RECEPTION
2:45 – 3:30 PM
MEZZANINE LEVEL LINCOLN A
Fellows and early career physician and sonographer members are invited to meet other members who are just beginning their careers, while networking with leaders in the field of echocardiography. Representatives from the special interest councils, the Membership Steering Committee, and ASE leadership will share how ASE helped their careers.

ECHOVATION CHALLENGE
5:00 - 6:30 PM
TENNESSEE BALLROOM C
Now in its 3rd year, ASE is committed to its mission of accelerating innovation and shaping the future of cardiovascular ultrasound through the Echovation Challenge, “Echo at the Speed of Life.” Following on the success of the new format in 2017, ASE Past President, Randolph P. Martin, MD, FASE, will serve as the emcee again along with an esteemed Expert Reaction Panel: Pamela S. Douglas, MD, MACC, FASE; Richard L. Popp, MD, MACC, FASE; James D. Thomas, MD, FACC, FASE, FESC; Neil J. Weissman, MD, FACC, FASE; and Karen G. Zimmerman, BS, ACS, RDCS (AE, PE), RVT, FASE. The exciting Shark Tank-style session features three finalist teams showcasing their novel approaches, technologies, and processes in echocardiography for start-up funding. Three finalists will present their solutions. Refreshments will be served, so don’t miss out on this exciting and entertaining special session!

ASE FOUNDATION 9TH ANNUAL RESEARCH AWARDS GALA
GAYLORD OPRYLAND® RESORT & CONVENTION CENTER
PRESIDENTIAL BALLROOM D
The premier annual fundraiser for the ASE Education and Research Foundation is the 9th Annual Research Awards Gala. The ASE Foundation invites you to ‘waltz back in time’ and don your 1950s best as we honor this year’s ASE award recipients while raising funds to support cardiovascular ultrasound research. Event proceeds support research activities that advance the progress and future of our field. Tickets are required. For information, visit the ASE Foundation booth, located in the Presidential Lobby on Level 2.

MONDAY, JUNE 25
VALUE OF ECHO SUMMIT
8:00 – 11:45 AM
TENNESSEE BALLROOM D
This special session will explore the cataclysmic changes in the U.S. healthcare system and provide expert opinions on how best to navigate and thrive in this new environment. There will be two sessions, The Quality Echo Lab and Transitioning from Fee for Service to Value-based Reimbursement, both sessions will focus on helping the entire cardiovascular ultrasound community understand how their practice is impacted.

POSTER SESSION 2 (P2)
9:00 AM – 6:30 PM
EXHIBIT & POSTER HALL
Meet the Investigators: 11:45 AM – 1:15 PM

MODERATED POSTER SESSION 2
12:00 PM - 1:00 PM
2017 EACVI YIA Winner................................................. Poster EUR-1
2018 JSE YIA Winner .................................................. Poster JSE-1
New Technology.................................................. Posters P2-36 and P2-37

TOPICS
Value of Echocardiography (Quality and Cost) / Comparative Effectiveness...... Posters P2-01 through P2-25
Critical Care Ultrasound / Point of Care Ultrasound ........ Posters P2-26 through P2-35
New Technology.......................... Posters P2-36 through P2-69
Contrast Echocardiography...... Posters P2-70 through P2-77
Intraprocedural Echocardiography (Operating Room and Interventional Lab) / TEE.. Posters P2-78 through P2-87
Echocardiography in SOE / Arrhythmias / Atrial Function ....................... Posters P2-88 through P2-107
Ischemic Heart Disease...... Posters P2-108 through P2-117
**CHALK TALKS**
9:30 – 10:15 AM AND 2:45 – 3:30 PM
EXHIBIT & POSTER HALL

Don’t miss the opportunity to get your clinical questions answered by expert faculty. During the morning break, Jae Oh, MD, FASE, will discuss *Diastology*. The afternoon break will feature Tara Bharucha, MB BCHIR, Daniel Forsha, MD, FASE, Jimmy Lu, MD, FASE, and Theresa Tacy, MD, discussing *Choosing a Career in Pediatric Echo*.

**IMAGEGUIDE REGISTRY INFORMATION SESSIONS**
11:45 AM - 12:30 PM
*Thomas Porter, MD, FASE*

1:00-1:45 PM
ImageGuideEcho International Interest Discussion
*Allan Klein, MD, FASE*

2:45-3:30 PM
ImageGuide Registry Overview and Q&A – Encore Presentation
*Milind Desai, MD, FASE and Sherif Nagueh, MD, FASE*

**SCIENCE & TECHNOLOGY THEATER**
11:45 AM – 1:15 PM
EXHIBIT & POSTER HALL

*Intelligence in Echocardiography: New Innovations Built for Better Care*
*Presented by Philips*

Leading cardiovascular imagers, researchers, and professors will present on how cardiac ultrasound can lead to better patient care, through use of new tools allowing for confident diagnostic decisions, improved workflow, and more seamless communication and collaboration across the ever-more complex cardiology division.

*Lunch is provided by ASE and is included in all Scientific Sessions registration fees, but space and food are first come, first served. These sessions are not part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed by or affiliated with ASE.*

**BRIAN HALUSKA SONOGRAPHER RESEARCH AWARD COMPETITION**
1:15 – 2:45PM
PRESIDENTIAL BALLROOM A

The ASE Foundation’s annual Sonographer Investigator’s Award Competition has been renamed as the Brian Haluska Sonographer Research Award Competition to honor the late Brian Haluska, PhD, MSC (HONS), MSC, RDMS, AMS, FASE and his incredible contributions to sonographer-led research over the course of his career. This competition recognizes non-physicians who served as the primary investigator on their project of original work. During this session the competition finalists will present their research and a winner will be selected by a panel of echo experts.

*Courtney J. Cassidy, RDCS, Children’s Hospital Colorado, Aurora, CO – Pulmonary Artery Acceleration Time is a Poor Estimation of Severity of Pulmonary Hypertension in Pediatric Patients*

*Kelly Thorson, ACS, RDCS, RCCS, FASE, Valley Children’s Hospital, Madera, CA – Evaluation of 3D Echocardiography for Assessment of Right Ventricular Volume & Comparison with Cardiac Magnetic Resonance Imaging in Pediatric Patients*

*Jason B. Pereira, RCS, Yale-New Haven Hospital, New Haven, CT – Feasibility of Contrast Echocardiography to Assess Right Ventricular Size and Function*

*Joy D. Guthrie, PhD, ACS, RDMS, RDMS, RVT, FASE, Community Regional Medical Center, Fresno, CA – The Addition of Subdiaphragmatic Doppler to Assess Vascular Steal Phenomenon in Hemodynamically Significant PDAs*
**ARTHUR E. WEYMAN YOUNG INVESTIGATOR’S AWARD COMPETITION AND 19TH ANNUAL FEIGENBAUM LECTURE**

**3:30 – 5:30 PM**

**PRESIDENTIAL BALLROOM D**

This annual competition is supported by the National Board of Echocardiography (NBE) in honor of its first president, Arthur E. Weyman, MD, FASE. These investigators will present their research and a winner will be selected by a panel of echo experts.

**Marton Tokodi, MD**, WVU Heart & Vascular Institute, Morgantown, WV – Extracting Knowledge from Geometric Shape of Echocardiography Data: Isolating Phenotypic Traits within the Systolic-Diastolic Dysfunction Continuum

**Saki Ito, MD**, Mayo Clinic, Rochester, MN – Mid-Wall Fractional Shortening in Aortic Stenosis Patients With or Without Reduced Ejection Fraction

**Michael Chi Yuan Nam, MBCh, BSc**, Sunshine Coast University Hospital, Birtinya, Australia – An Experimental Series Investigating the Effects of Hyperinsulinemic Euglycemia on Myocardial Blood Flow Reserve in Healthy Individuals and on Perfusion Defect Size in Patients Presenting with Acute Myocardial Infarction

**Brandon Helfield, PhD**, Sunnybrook Research Institute, Toronto, ON, Canada – Endothelial Cell Repair Biophysics During Ultrasound and Microbubble Sonoporation

**FEIGENBAUM LECTURER**

*Mark K. Friedberg, MD, FASE, Staff Cardiologist, Associate Scientist, Research Institute, The Hospital for Sick Children, University of Toronto, Toronto, Ontario, Canada, and Associate Professor in Pediatrics, University of Toronto, Toronto, Ontario, Canada.*

Dr. Friedberg is a premier leader in the scientific investigation of congenital heart disease, a gifted and entertaining presenter, and a dedicated volunteer to ASE and its mission. He has over 120 publications mostly as original research, where he was the first or senior author. Through his innovative research, he was able to use tissue Doppler and strain imaging to advance the understanding of myocardial function in children with congenital heart disease. He showed the prognostic value of echocardiography in patients with tetralogy of Fallot and children with pulmonary arterial hypertension. Dr. Friedberg will present “Echocardiographic Insights into the Stressed Right Ventricle: A Whole Hearted Story” as the 19th Annual Feigenbaum Lecturer. This lectureship, named in honor of the founder and first president of ASE, Harvey Feigenbaum, MD, FASE, is awarded to a young investigator in recognition of their significant contributions to research in the field of echocardiography and their potential to continue at a high level of achievement.

**WASE NORMAL VALUES STUDY**

To round out this session, principal investigator, *Federico M. Asch, MD, FASE*, will present the preliminary findings from the World Alliance of Societies of Echocardiography (WASE) Normal Values Study which entails the acquisition of complete 2D and 3D echocardiograms in 100 healthy individuals of both genders and across a wide range of ages in each of 17 countries. *Roberto M. Lang, MD, FASE*, who is also a principal investigator recently said, “This study is bringing together the scientific cardiovascular ultrasound community from around the world to better understand if the current recommended normal values for heart dimensions and function in subjects from different races and countries are similar or different.” The ASE Foundation and its donors are funding this study with generous in-kind support from sponsors TOMTEC Imaging Systems, Medidata, Medstar Health Research Institute, and University of Chicago.

**MEMBER CLASS REUNION RECEPTION**

**5:30 – 6:30 PM**

**EXHIBIT & POSTER HALL**

All attendees are invited to this complimentary reception. Enjoy beverages and hors d’oeuvres while connecting with colleagues and friends. *New this year*, celebrate the number of years you have been an ASE member. The reception will feature five bars with a decade theme at each bar from the 1970s through the 2010s. Head to your “era” and join your colleagues to celebrate.
Her friends, colleagues, fellows, and the many sonographers whom she has trained are proud to recognize
Priscilla J. Peters, BA, RDCS, FASE as the recipient of
ASE’s 2018 Cardiovascular Sonographer Distinguished Teacher Award
The National Board of Echocardiography lovingly remembers Past President Edward A. Geiser, MD, FASE for his outstanding leadership and numerous contributions to the field of echocardiography.
The following Awards and Grants are supported by the ASE Education and Research Foundation. Charitable donations are fostering the next generation of cardiovascular ultrasound professionals.

2018 ASE FOUNDATION TOP 25

The presentation of original research from around the world is an integral component of ASE’s annual meeting. A special group of investigators were selected as the ASE Foundation’s Top 25. These early career abstract presenters were selected by the Abstract Chairs based on the scientific merit of their research projects and were awarded $1,000 from the Foundation for travel expenses. New this year is the Alan S. Pearlman Research Award established to honor Dr. Pearlman’s ten years of service as JASE Editor-In-Chief. Supported by a grant to the ASE Foundation by Elsevier, this annual award of $1,000 is given to the highest scoring investigator out of the 25.

- Dai-Yin Lu, MD, Taipei Veterans General Hospital, Taipei, Taiwan - Alan S. Pearlman Research Awardee
- AbdulRahman Abutaleb, MD, Northwestern University Feinberg School of Medicine, Chicago, IL
- Lindsey Aurora, MD, Henry Ford Hospital, Detroit, MI
- Meaghan J. Beattie, MD, Boston Children’s Hospital, Boston, MA
- Ajay Bhandari, MD, University of South Florida, Tampa, FL
- Dale Burkett, MD, Children’s Hospital Colorado, Aurora, CO
- John L. Colquitt, MD, Baylor College of Medicine/Texas Children’s Hospital, Houston, TX
- Katherine DeWeert, MD, Lurie Children’s Hospital of Chicago, Chicago, IL
- Sarah R. Fuchs, MD, Vanderbilt University Medical Center, Nashville, TN
- Mansi Gaitonde, MD, Emory University, Sibley Heart Center, Atlanta, GA
- Ganesh Kumar Gnanappa, MBBCh, Stollery Children Hospital, University of Alberta, Edmonton, AB, Canada
- Atefeh Haghi, MD, University of Notre Dame, Perth, Australia

2018 TOMTEC INNOVATOR RESEARCH TRAVEL GRANT

Tomoyuki Sato, MD, from Children’s Hospital of Philadelphia, Philadelphia, PA, is the recipient of the 2018 TOMTEC Innovator Research Travel Grant. Supported by a grant to the ASE Foundation from TOMTEC IMAGING SYSTEMS GMBH, this annual award of $4,000 is given to assist a promising young researcher presenting his/her work at the ASE Scientific Sessions. For more than 20 years, TOMTEC has driven innovations in echocardiography, and the ASE Foundation thanks them for investing in the young researchers who will continue to drive the field forward.

FAROOQ CHAUDHRY RESEARCH AWARD

Nahoko Kato, MD, from Tokyo Bay Medical Center, Urayasu, Japan, is the recipient of the Farooq Chaudhry Research Award. This award is supported by a grant to the ASE Foundation from Bracco Diagnostics Inc. in memory of Farooq Chaudhry, MD, FASE, who passed in August 2017. Dr. Chaudhry was dedicated to education and research on the clinical use of stress echo, and fittingly this $4,000 travel stipend is presented to the highest ranked abstract on this topic. Dr. Kato will be recognized during the ASE Awards plenary on Saturday morning.
2018 ALAN D. WAGGONER STUDENT SCHOLARSHIP AWARDS

The Alan D. Waggoner Student Scholarship program was established in 2001 in recognition of Mr. Waggoner’s professional achievements and service to ASE. Funding from the ASE Foundation provides a limited number of $1,000 scholarship awards for students enrolled in a cardiac ultrasound program accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) in the United States or by an equivalent Canadian or international ultrasound program. Also included with each scholarship award is complimentary registration for the recipient to attend the ASE 2018 Scientific Sessions and travel support. This year’s recipients were chosen from a large number of students who were nominated by their program directors. The 2018 scholarship award recipients will be recognized during ASE’s Annual Awards Presentation and Edler Lecture from 8:00 – 9:30 AM, Saturday, June 23, in Presidential Ballroom D.

Jennifer Andrews, Johns Hopkins School of Cardiac Sonography, Echocardiography Program, Baltimore, MD
Veronica Dudek, Alvin Community College, Diagnostic Cardiovascular Sonography, Alvin, TX
Rochelle Graveline, Hoffman Heart & Vascular Institute School of Cardiac Ultrasound, Hartford, CT
Emily Hafner, LSU Health Sciences Center, School of Allied Health Professions, Cardiovascular Sonography Program, New Orleans, LA
Anita Keck, Kansas University Medical Center, Advanced Diagnostic Cardiac Sonography, Kansas City, KS
Jin Laudadio, South Hills School of Business and Technology, State College, PA
Amanda Lewis, LSU Health Sciences Center School of Allied Health Professions-Cardiovascular Sonography Program, New Orleans, LA
Meghan Lowe, Mayo Clinic School of Health Sciences, Echocardiography Program, Rochester, MN
Forrest Olson, Grossmont College Cardiovascular Technology, Lakeside, CA
Emily Tanel, Aurora St. Luke’s School of Diagnostic Medical Sonography, Milwaukee, WI
Rachel Tutwiler, South Hills School of Business and Technology, State College, PA
Summer Vandigo, Johns Hopkins School of Cardiac Sonography, Echocardiography Program, Baltimore, MD
Heather Wallace, University of Arkansas for Medical Sciences/Diagnostic Medical Sonography, Little Rock, AR
Kassie Warren, Piedmont College, Adult Echocardiography Program, Gainesville, GA
Jessica Wright, Yale New Haven Hospital School of Diagnostic Imaging, New Haven, CT

2018 ULTRAECCHO, LTD. CARDIOVASCULAR SONOGRAPHER STUDENT TRAVEL GRANT

This award, supported by a grant to the ASE Foundation, is presented to a sonographer student enrolled in a CAAHEP accredited cardiac ultrasound program. This grant provides funding to assist a student to attend the annual Scientific Sessions or other ASE-sponsored educational courses. The 2018 student travel grant has been awarded to Amber Cyrus, Johns Hopkins Hospital School of Cardiac Sonography, Baltimore, MD. This award will be recognized during the Council on Cardiovascular Sonography Business Meeting, on Saturday, June 23 at 10:00 AM in Presidential Ballroom A.

2018 FEIGENBAUM CARDIOVASCULAR SONOGRAPHER STUDENT TRAVEL GRANT

This award is supported by a grant to the ASE Foundation from Elsevier Inc. to honor Dr. Harvey Feigenbaum’s commitment and tenure as the former Journal of the American Society of Echocardiography (JASE) Editor for 20 years. It is presented to a sonographer student enrolled in a CAAHEP accredited cardiac ultrasound program. This grant provides funding to assist a student to attend the Scientific Sessions or other ASE sponsored educational courses. The 2018 student travel grant has been awarded to Randall S. Brown, Piedmont College School of Cardiovascular Technology, Demorest, GA. This award will be recognized during the Council on Cardiovascular Sonography Business Meeting, on Saturday, June 23 at 10:00 AM in Presidential Ballroom A.

2018 COUNCIL TRAVEL GRANT AWARDS

The ASE Foundation sponsors Council Travel Grant Awards to fellows, trainees, and sonographers to fund their attendance at the Scientific Sessions. These travel grants are part of an ongoing effort by the Foundation, with the assistance of the Council Steering Committees, to encourage trainees in cardiovascular specialties to focus on the respective echocardiography sub-specialty. In addition, the Council Steering Committees hope to provide interested fellows with a deeper understanding of the imaging field and facilitate the development of meaningful mentoring opportunities for trainees with established imaging faculty.
RECRUIT ONE new member and you BOTH receive an ASE branded PopSocket.

Recruit others to join and help make ASE even stronger.

YOU make ASE the largest voice in cardiovascular imaging in the world.

YOU know the value of membership and can share it with your colleagues.

YOU can encourage others to join ASE to maintain the influence of the echo community.

RECRUIT ONE new member and you BOTH receive an ASE branded PopSocket.

RECRUIT FIVE OR MORE new members and your 2019 ASE membership will be FREE.

For more information visit the ASE Headquarters Booth #424 or: ASEcho.org/MemberReferralProgram

The Rules: The member referral program is an ASE member benefit designed to encourage current members to spread the word about the value of ASE membership. If you are not sure of your member status, call us at 919-861-5574. This offer expires August 31, 2018. New members must include the referring member’s name on the membership application to receive the ASE referral gift. Referring credit is received once a new member joins ASE. A maximum of one free membership per member per year can be earned.

A maximum of one free membership per member per year can be earned.

COUNCIL ON PEDIATRIC AND CONGENITAL HEART DISEASE TRAVEL GRANT AWARD RECIPIENTS
Andrew McCrary, MD – Duke University Medical Center, Durham, NC
Brian White, MD – Children’s Hospital of Philadelphia, Philadelphia, PA

COUNCIL ON VASCULAR ULTRASOUND TRAVEL GRANT AWARD RECIPIENTS
Bo Xu, MD – Heart and Vascular Institute, Cleveland Clinic, Cleveland, OH

COUNCIL ON PERIOPERATIVE ECHOCARDIOGRAPHY TRAVEL GRANT AWARD RECIPIENTS
Ali Elsayes, MD – Tufts University Medical Center, Boston, MA
Diana DeAndrade, MD – University of Pittsburgh Medical Center, Pittsburgh, PA

COUNCIL ON CARDIOVASCULAR SONOGRAPHY TRAVEL GRANT AWARDS
Babitha Thampinathan, RDCS – Toronto General Hospital-Toronto, ON Canada
Jason Pereira, RCS – Yale New Haven Hospital, New Haven, CT

KATANICK SCHOLARSHIP AWARD
The 2018 Katanick Scholarship Award will be awarded to Oksana Semkiv with Mayo Clinic School of Health Sciences Echocardiography Program, Scottsdale, AZ. This award includes a $1,000 student scholarship for the highest ranking student sonographer candidate nominated for ASEF scholarship awards and up to $500 in travel reimbursement to attend the ASE Scientific Sessions. This award was named to honor the legacy of Sandy Katanick, RN, RVT, CAE, who retired as CEO of the Intersocietal Accreditation Commission after over 25 years of service to the field.

ADAMS GLOBAL SERVICE AWARD
The Adams Global Service Award is awarded to Madeline Schiminger BS, RDCS (AE, PE) of Johns Hopkins University, Baltimore, MD. This $1,500 travel grant award is presented on an annual basis to one sonographer mission volunteer, in honor of David B. Adams, ACS, RCS, RDCS, FASE, previously of Duke University Medical Center, Durham, North Carolina. Mr. Adams has contributed to the success of the ASEF global health outreach events with his international mission experience, clinical skills, and leadership abilities. Madeline will be among those volunteering to screen patients at risk for Chagas cardiomyopathy in Merida, Mexico, in August 2018.

COUNCIL ON PEDIATRIC AND CONGENITAL HEART DISEASE TRAVEL GRANT AWARD RECIPIENTS
Andrew McCrary, MD – Duke University Medical Center, Durham, NC
Brian White, MD – Children’s Hospital of Philadelphia, Philadelphia, PA

COUNCIL ON VASCULAR ULTRASOUND TRAVEL GRANT AWARD RECIPIENTS
Bo Xu, MD – Heart and Vascular Institute, Cleveland Clinic, Cleveland, OH

COUNCIL ON PERIOPERATIVE ECHOCARDIOGRAPHY TRAVEL GRANT AWARD RECIPIENTS
Ali Elsayes, MD – Tufts University Medical Center, Boston, MA
Diana DeAndrade, MD – University of Pittsburgh Medical Center, Pittsburgh, PA

COUNCIL ON CARDIOVASCULAR SONOGRAPHY TRAVEL GRANT AWARDS
Babitha Thampinathan, RDCS – Toronto General Hospital-Toronto, ON Canada
Jason Pereira, RCS – Yale New Haven Hospital, New Haven, CT

KATANICK SCHOLARSHIP AWARD
The 2018 Katanick Scholarship Award will be awarded to Oksana Semkiv with Mayo Clinic School of Health Sciences Echocardiography Program, Scottsdale, AZ. This award includes a $1,000 student scholarship for the highest ranking student sonographer candidate nominated for ASEF scholarship awards and up to $500 in travel reimbursement to attend the ASE Scientific Sessions. This award was named to honor the legacy of Sandy Katanick, RN, RVT, CAE, who retired as CEO of the Intersocietal Accreditation Commission after over 25 years of service to the field.

ADAMS GLOBAL SERVICE AWARD
The Adams Global Service Award is awarded to Madeline Schiminger BS, RDCS (AE, PE) of Johns Hopkins University, Baltimore, MD. This $1,500 travel grant award is presented on an annual basis to one sonographer mission volunteer, in honor of David B. Adams, ACS, RCS, RDCS, FASE, previously of Duke University Medical Center, Durham, North Carolina. Mr. Adams has contributed to the success of the ASEF global health outreach events with his international mission experience, clinical skills, and leadership abilities. Madeline will be among those volunteering to screen patients at risk for Chagas cardiomyopathy in Merida, Mexico, in August 2018.
ASE is Pleased to Offer Its Newest Educational Products at ASE 2018

Purchase all of ASE’s products at the following locations:

**ASE Headquarters Booth #424**
- Saturday June 23 . . . 4:30 – 6:30 PM
- Sunday, June 24 . . . 9:00 AM – 4:00 PM
- Monday, June 25 . . . 9:00 AM – 6:30 PM

**ASE Products Sales Booth – Presidential Lobby**
- Friday, June 22 . . . 12:00 – 6:15 PM
- Saturday, June 23 . . . 6:30 AM – 5:00 PM
- Sunday, June 24 . . . 6:30 AM – 5:00 PM
- Monday, June 25 . . . 6:30 AM – 5:30 PM
- Tuesday, June 26 . . . 6:30 AM – 2:30 PM

- 2nd Edition Cardiovascular Sonographer Registry Review Guide
- Clinical Applications of Ultrasound Enhancing Agents in Echocardiography (Poster, Binder, and Flip Chart Insert)
- Guideline Reference Book Spiral
- Mechanisms of Mitral Regurgitation (Poster and Pocket Guide)
- Utility of 3D Echocardiography: Promises and Perspectives DVD

**Order Products Online at ASEMarketPlace.com**
EXHIBIT & POSTER HALL HOURS

SATURDAY, JUNE 23RD
President’s Reception ......................... 4:30 – 6:30 PM
SUNDAY, JUNE 24TH ......................... 9:00 AM – 4:00 PM
MONDAY, JUNE 25TH ......................... 9:00 AM – 6:30 PM

EXHIBIT & POSTER HALL BREAK SCHEDULE

SUNDAY, JUNE 24TH
Coffee Breaks ................................. 9:30 – 10:15 AM
2:45 – 3:30 PM
Lunch Break ..................................... 11:45 – 1:15 PM
MONDAY, JUNE 25TH
Coffee Breaks ................................. 9:30 – 10:15 AM
2:45 – 3:30 PM
Lunch Break ..................................... 11:45 AM – 1:15 PM
Member Class Reunion Reception .... 5:30 – 6:30 PM

SCIENCE & TECHNOLOGY THEATER SCHEDULE

ASE will provide boxed meals during each lunch session on a first come, first served basis (max. 350 participants). Various refreshments may also be available for the evening sessions. These refreshments are included in all Scientific Sessions registration fees, but space and food are first come, first served.

FRIDAY, JUNE 22ND
7:00 – 8:30 PM
Passion and Precision in Echocardiography
Presented by Siemens Healthineers

SATURDAY, JUNE 23RD
11:30 AM – 1:00 PM
Who Benefits From the Use of Contrast Echocardiography?
Presented by Lantheus Medical Imaging, Inc.

6:30 – 8:00 PM
Challenging the Status Quo: 3D Imaging and Diagnosis
Presented by Hitachi Healthcare

SUNDAY, JUNE 24TH
11:45 AM – 1:15 PM
The MR Decision Pathway: The Field Guide to Identification, Quantification and Treatment
Presented by Abbott

MONDAY, JUNE 25TH
11:45 AM – 1:15 PM
Intelligence in Echocardiography: New Innovations Built for Better Care
Presented by Philips

These sessions are not part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed by or affiliated with ASE.
WHERE INNOVATION AND SCIENCE MEET

Don’t miss the Exhibit & Poster Hall, on the lower level of the convention center in Ryman Hall. The exchange of information and access to new concepts, technology, devices, and research is a vital component of your professional development. Get face-to-face with the industry’s leading developers and executives who can help you discover what’s new, assist you in making the right choices for your institution, and show you ways to reduce costs and improve productivity. Network with colleagues and friends while experiencing the best our rapidly-changing industry has to offer, including the newest equipment and devices as well as the latest in research and development. You can also grab a cup of coffee, lunch, or snack. The showcase of investigators from around the world presenting cutting-edge research on the latest advances in cardiovascular ultrasound is a highlight of ASE’s Scientific Sessions. Spend time in the poster area and gain firsthand knowledge and insight from scientific investigators.

DON’T MISS DAILY POSTER SESSIONS ON SUNDAY AND MONDAY.

ASE HEADQUARTERS BOOTH #424

As the largest organization representing the cardiovascular ultrasound community, ASE is a vibrant and progressive organization. Visit the ASE Headquarters booth #424 to find comprehensive information on all of our educational programs and products, membership opportunities, and advocacy efforts. Don’t miss the debut of exciting new products and services designed to help with your practice of cardiovascular ultrasound. ASE staff is available to help you find whatever you need. If you have not logged into ASEUniversity or used Connect@ASE, come by for a tutorial. While you are there, pick up your complimentary flash drive loaded with all the ASE guidelines.

Have a question about ASE? There will be a variety of opportunities to meet committee leaders and staff in the ASE booth. Learn how to apply to be a FASE, about ASE social media and how to start your own social media presence, ASE’s advocacy objectives, and discuss ASE issues with the ASE president.

MEET FACE TO FACE

Are you interested in becoming a Fellow of the American Society of Echocardiography (FASE) but have questions about whether you may qualify? Stop by the ASE Booth #424 to talk one-on-one with a member of the FASE Advisory Group or ASE staff about any questions you have about achieving the FASE designation.

ACTIVITIES IN THE ASE BOOTH

SATURDAY, JUNE 23RD

4:30 – 5:00 PM
Meet ASE President
Vera Rigolin, MD, FASE

4:30 – 5:30 PM
ASE Tweet Up
Learn How to Use Twitter to Advance Your Career
Amer Johri, MD, FASE, Sharon Mulvagh, MD, FASE, and David Wiener, MD, FASE
Public Relations Committee Members

Get the Most Out of Your Member Benefits
Dallas Lyons, ASE Associate Manager, Member Services and Suzanne Morris, Membership Recruitment Manager

SUNDAY, JUNE 24TH

9:30 – 10:15 AM
Learn More About the ASE Leadership Academy
Neil Weissman, MD, FASE, Program Chair
Face to FASE – Learn How to Achieve the FASE Designation
Nikolaos Skubas, MD, FASE, FASE Advisory Committee Chair
Jennifer Warmsbecker, RDCS, BS, FASE, FASE Advisory Committee Incoming Co-Chair

2:45 – 3:30 PM
Face to FASE – Learn How to Achieve the FASE Designation
Anitha Parthiban, MD, FASE, FASE Advisory Committee Member
Nikolaos Skubas, MD, FASE, FASE Advisory Committee Chair
MONDAY, JUNE 25TH

9:30 – 10:15 AM
Learn More About the ASE Leadership Academy
Neil Weissman, MD, FASE, Program Chair

Face to FASE – Learn How to Achieve the FASE Designation
Nikolaos Skubas, MD, FASE, FASE Advisory Committee Chair
Gregory Tatum, MD, FASE, FASE Advisory Committee Incoming Chair

2:45 – 3:30 PM
Learn More About ASE’s Case Reports
Journal CASE
Karen Zimmerman, BS, ACS, RDCS (AE, PE), RVT, FASE, Co-Editor of CASE

Face to FASE – Learn How to Achieve the FASE Designation
Nikolaos Skubas, MD, FASE, FASE Advisory Committee Chair
Gregory Tatum, MD, FASE, FASE Advisory Committee Incoming Chair

3:00 – 3:30 PM
Meet the New Editor of JASE
Michael Picard, MD, FASE, Editor of the Journal of the American Society of Echocardiography

5:30 – 6:00 PM
Getting the Most Out of Your Member Benefits
Natalya Read, ASE Director of Membership

Face to FASE – Learn How to Achieve the FASE Designation
Mary Alice Dilday, ASE Vice President of Internal Relations

6:15 PM
Drawing for the Echo Bingo Prizes
Announcement of the ASE Foundation Cardiovascular Challenge Winners and Chain Reaction Winners

ECHO BINGO
Join in the fun! Each attendee will receive a set of ECHO Bingo Cards in their Conference Bag at Registration. Visit the exhibitors in the Exhibit & Poster Hall with a new bingo card each day. The exhibiting company will stamp your card. Bring your stamped card, completed either by row, column, or diagonally, to the ASE Headquarters Booth #424 to be entered into the drawing. Play all three cards! The drawing will be held on Monday, June 25 in the Exhibit & Poster Hall during the Member Class Reunion Reception from 5:30 – 6:30 PM. Must be present to win.

First prize package includes:
- Complimentary full meeting registration for 2019 ASE Scientific Sessions
- ASE membership through December 31, 2019
- Hotel accommodations during 2019 ASE Scientific Sessions
- Prize is transferable, but all elements of the prize must be utilized by the same individual.
- VALUE OVER $1550!

Second Prize: ASE Guideline Reference Book
Third Prize: Pocket Guideline Bundle

ECHO AROUND THE WORLD
Located at the ASE Headquarters booth #424, visit Echo Around the World and explore literature, courses, and information from echocardiography societies worldwide. Learn about ASE’s International Alliance Partners and their upcoming activities.
Passion and Precision in Echocardiography: Science and Technology Theater

sponsored by Siemens Healthineers
Friday, June 22, 2018
7:00 p.m.–8:30 p.m.
Gaylord Opryland Resort & Convention Center
Nashville, TN

Join us for a Happy Hour and Hall of Fame cases about how to use echocardiography to make diagnoses and therapies more precise. Featuring the following speakers:

**Moderator:**
Natesa G. Pandian, MD, Hoag Hospital

**Presentations:**
Robert Burke, MD, FASE, HonorHealth
Mohamed Saric, MD, New York University
Lissa Sugeng, MD, Yale Medical Center

Special Celebration!
Arrive on time for a special announcement on our Walk Away with an ACUSON Bonsai™ contest winner!

This activity is not a part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed or affiliated with ASE.
Who Benefits From the Use of Contrast Echocardiography?

Join expert faculty for an interactive panel discussion on contrast echocardiography, followed by a moderated Q&A session.

See the advantages contrast echocardiography has over unenhanced echo in diagnostic outcomes, patient management, and cost effectiveness. Understand the broad applicability of contrast echo across patients in multiple care settings. Gain practical insight into the implementation and administration of contrast echocardiography.

Lunch is provided by ASE and is included in all Scientific Sessions registration fees, but space and boxed lunches are first-come, first served.

This activity is not part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee or in any way endorsed or affiliated with ASE. In accordance with PhRMA Code on Interactions with Healthcare Professionals and individual state compliance, attendance at this educational program is limited to healthcare professionals. Accordingly, attendance by guests or spouses is not permitted.

HITACHI HEALTHCARE PRESENTS

CHALLENGING THE STATUS QUO:
3D IMAGING AND DIAGNOSIS

Flow and Function Relationship in Health and Disease
Dr. Partho Sengupta, MD, MBBS, FACC, FASE
West Virginia University Hospital

Impact of 3D: Changing Perspectives
Lissa Sugeng, MD, MPH, FACC, FASE
Ian Crandall, MS, RCS
Yale New Haven Hospital

Science & Technology Theater sessions are not part of the official ASE Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed or affiliated with ASE.
The MR Decision Pathway:
The Field Guide to Identification, Quantification and Treatment

SUNDAY, JUNE 24 | 11:45 A.M. – 1:15 P.M.

At the Trailhead: Determining the Mechanism
Judy Hung, MD, FACC, FASE
Associate Director, Echocardiography
Massachusetts General Hospital

Watch Your Step! Common Errors in MR Quantification in Everyday Practice
Rebecca Hahn, MD, FACC, FASE
Director of Interventional Echocardiography
Columbia University

Beyond Everest: A Solution for High-Risk Patients with Transcatheter Edge-to-Edge Repair
Stephen Little, MD, FRCPC, FACC, FASE
John S. Dunn Chair in Cardiovascular Research and Education
Debakey Heart and Vascular Center Houston Methodist
Join us for a Science & Technology Theater Event

Intelligence in Echocardiography: New innovations built for better care

Leading cardiovascular imagers, researchers, and professors will present on how cardiac ultrasound can lead to better patient care, through use of new tools allowing for confident diagnostic decisions, improved workflow, and more seamless communication and collaboration across the ever-more complex cardiology division.

Monday June 25
11:45 am – 1:15 pm
LOCATION: Exhibit & Poster Hall

This activity is not a part of the official ASE 29th Annual Scientific Sessions, as planned by the Program Committee, or in any way endorsed or affiliated with ASE.

3D Systems Simbionix ............................... 527
5381 South Alkire Circle
Littleton, CO 80127
United States
Phone: 303-273-5344
3dsystems.com/healthcare

Experience a hands-on demo of the Simbionix U/S Mentor cross-specialty simulator for ultrasound examinations and interventions. The U/S Mentor offers a multidisciplinary, realistic hands-on training for the ever-growing utilization of ultrasound in medicine especially at point of care (POC) setting. Request a demo at healthcare@3dsystems.com or www.3dsystems.com/healthcare.

AOA Medical ............................................ 500
1921 Carnegie Avenue, Unit C-D
Santa Ana, CA 92705
United States
Phone: 888-680-5575
unimedmassager.com

The Unimed Massager is a state-of-the-art TENS unit device designed to give you hours of relief and relaxation. Completely safe and easy to use in the privacy of your own space, the Unimed Massager is ideal for those aches and pains we accumulate from daily activities like sports, driving and extended period of sitting.

Abbott .................................................... 518
3200 Lakeside Drive
Santa Clara, CA 95054
United States
Phone: 408-845-3000
abbott.com

At Abbott, we’re committed to helping people live their best life through the power of health. For more than 125 years, we’ve brought new technologies to the world—in nutrition, diagnostics, medical devices and branded generic pharmaceuticals—that create more possibilities for more people at all stages of life.

Allied Powers, LLC ................................. 202
9255 W. Russell Road #177
Las Vegas, NV 89148
United States
Phone: 702-283-6401
emp10.com

The Alliance for Physician Certification and Advancement™ (APCA™) and The American Registry for Diagnostic Medical Sonography® (ARDMS®) ........................................ 328
1401 Rockville Pike, Suite 600
Rockville, MD 20852
United States
Phone: 800-943-1709 (APCA); 800-541-9754 (ARDMS)
apca.org
ardms.org

The Alliance for Physician Certification and Advancement™ (APCA™), established in 2016, exclusively serves the physician community of over 21,000 physicians in support of their enduring commitment to continual learning and providing high-quality and compassionate patient care through certification. For more information, visit www.APCA.org.

The American Registry for Diagnostic Medical Sonography® (ARDMS®), founded in 1975, administers examinations and awards credentials in the areas of diagnostic medical ultrasound. With over 85,000 credentialed professionals worldwide, ARDMS is considered the global standard of excellence in sonography. ARDMS is part of the non-profit Inteleos family of councils.

American Society of Echocardiography (ASE) ........................................... 424
2530 Meridian Parkway, Suite 450
Durham, NC 27713
United States
Phone: 919-861-5574
Email: ASE@ASEcho.org
ASEcho.org
**EXHIBITOR DESCRIPTIONS**

**ASCEND Health Information Technology... 122**

801 Warrenville Road, Suite 200
Lisle, IL 60532
United States
Phone: 844-413-2610
ascendhit.com

ASCEND Health Information Technology is the leader in cardiovascular structured reporting and workflow solutions solving data accessibility and usability challenges. Committed to developing technologies that optimize cardiovascular care delivery and services, ASCEND’s growing portfolio of cardiovascular imaging and quality management solutions raise the bar on care and workflow standards.

**British Society of Echocardiography (BSE) ..... 616**

10-16 Tiller Road
London E14 8PX
United Kingdom
Phone: +44 2073455185
bsecho.org

The BSE represents the interests of those working in clinical echocardiography at all levels, and in all areas, including adult and paediatric cardiology, cardiovascular research and teaching. With over 3,300 members, it is the largest of the professional groups affiliated to the British Cardiovascular Society.

**Biodex Medical Systems, Inc................. 519**

20 Ramsey Road
Shirley, NY 11967
United States
Phone: 631-924-9000
biodex.com

Biodex exhibits the latest in Ultrasound Table technology. Our ergonomically-designed tables include features to help prevent musculoskeletal injury to sonographers. The Echo/Vasc Pro™ and Vasc Pro™ tables feature a NEW adjustable foot support, providing sonographers comfortable access to patients of various heights. Foot support conveniently stores beneath the table.

**CAE Healthcare .............................. 615**

6300 Edgelake Drive
Sarasota, FL 34240
United States
Phone: 941-536-2845
caehealthcare.com

CAE Healthcare delivers simulation-based training solutions to hospitals, universities and military organizations worldwide. Visit the CAE Healthcare booth to learn about our patient, imaging and interventional simulators, including the CAE LucinaAR childbirth simulator with Microsoft HoloLens and the CAE Juno clinical skills manikin. Ask about our center management solutions.

**Bracco Diagnostics Inc ...................... 215**

259 Prospect Plains Road, Building H
Monroe Township, NJ 08831
United States
Phone: 609-514-2200
braccoimaging.com/us-en

Bracco Diagnostics Inc. is a leader in innovative contrast imaging agents in the U.S. BDI, headquarters and research offices in Monroe Township, NJ, offers a product and solution portfolio for all key diagnostic imaging modalities X-Ray Imaging MRI CEUS and Nuclear Medicine.

**Canon Medical Systems USA, Inc......... 125**

2441 Michelle Drive
Tustin, CA 92780
United States
Phone: 714-730-5000
us.medical.canon

About Canon Medical Systems USA, Inc. - Canon Medical Systems USA, Inc., headquartered in Tustin, Calif., markets, sells, distributes and services radiology and cardiovascular systems, including CT, MR, ultrasound, X-ray and interventional X-ray equipment. For more information, visit Canon Medical Systems’ website at https://us.medical.canon.
Cardiovascular Credentialing International (CCI) .......................................................... 315

1500 Sunday Drive, Suite 102
Raleigh, NC 27607
United States
Phone: 800-326-0268
cci-online.org

Since 1968, CCI has administered credentialing examinations as an independent credentialing agency. Examinations for ECG and rhythm analysis technicians, invasive/cath lab professionals, cardiac and vascular sonographers, phlebology sonographers, and electrophysiology professionals. CCI administers the only advanced level credential for sonographers, the Advanced Cardiac Sonographer (ACS). Visit CCI at booth #315.

CardioVillage, University of Virginia .......... 229

P.O. Box 800711
Charlottesville, VA 22908
United States
Phone: 434-924-8394
cardiovillage.com

CardioVillage provides top-quality accredited online cardiovascular education. CardioVillage is designed to accommodate your busy schedule by providing easy access to meaningful and easily consumable content. Our mobile-friendly, relevant, and engaging learning focuses on Practicing Cardiovascular Medicine, Echocardiography, New Topics and Trends, and Fundamentals.

Change Healthcare .............................................. 523

5995 Windward Parkway
Alpharetta, GA 30005
United States
Phone: 404-734-3551
changehealthcare.com

Change Healthcare provides enterprise imaging solutions, PACS, VNAs, and Cardiovascular Information Systems as well as workflows, viewers, and infrastructure. Our robust range of holistic solutions help customers improve collaboration and productivity, optimize performance and quality, and coordinate care while helping to maximize the value of their technology.

Children's Hospital & Medical Center .......... 617

822 Dodge Street
Omaha, NE
United States
Phone: 800-437-0272
childrensomaha.org

Children’s Hospital & Medical Center in Omaha, Nebraska is a 145-bed nonprofit organization. It is the only full-service pediatric hospital in Nebraska. Children’s receives patients from all over the country. At Children’s, no child in need of medical care is ever turned away due to an inability to pay.

CIVCO Medical Solutions ......................... 217

2301 Jones Boulevard
Coralville, IA 52241
United States
Phone: 800-445-6741
CIVCO.com

CIVCO is prepared to meet the growing need for effective infection control compliance in the ultrasound transducer reprocessing market. Visit us at ASE booth #217 to learn more about ASTRA, our latest offering in automated high-level disinfection for endovaginal, endorectal, and TEE ultrasound probes.

Diagnostic & Interventional Cardiology ...... 116

3030 W. Salt Creek Lane, Suite 201
Arlington Heights, IL 60005
United States
Phone 847-391-1000
DLcardiology.com

“The Trusted Resource for Technology and Clinical Applications in Diagnostic and Interventional Cardiology,” DAIC showcases the latest technology, device and service solutions. Edited for cardiologists, interventional cardiologists, cardiology administrators, sonographers, cath lab personnel, IT professionals and business administrators in hospitals and heart centers. Visit our booth for a free copy.
Digisonics .................................................. 314
3701 Kirby Drive
Houston, TX 77098
United States
Phone: 800-940-3240
digisonics.com
Digisonics provides standards-based and vendor-neutral cardiovascular information system (CVIS) solutions to streamline clinical workflows. Digisonics solutions offer integration options to imaging modalities and other 3rd party vendors, the most comprehensive analysis package and structured reporting for all cardiovascular modalities.

EchoPixel ................................................... 106
4677 Old Ironsides Drive, Suite 445
Santa Clara, CA 95054
United States
Phone: 844-273-7766
echopixeltech.com
EchoPixel will showcase its newly released version of True 3D software, the first mixed virtual reality software for improved diagnoses and more precise surgical planning. The software enables physicians and surgeons to see and interact with medical images the way they would with physical objects.

Elsevier ......................................................... 300
1600 John F. Kennedy Boulevard, Suite 1800
Philadelphia, PA 19103
United States
Phone: 215-239-3900
elsevierhealth.com
Elsevier is a world-leading provider of information solutions that enhance the performance of science, health, and technology professionals, empowering them to make better decisions, and deliver better care.

Epsilon Imaging, Inc........................................... 219
1100 Victors Way, Suite 10
Ann Arbor, MI 48108
United States
Phone: 734-369-5100
epsilon-imaging.com
Epsilon Imaging is transforming cardiac diagnostic workflow with a vendor neutral suite of visualization and analysis applications designed for echocardiography. EchoInsight® provides clinical applications for improved quantification of the heart with clinical strain imaging. Applications assist clinicians to enhance, standardize, and streamline interpretation and monitoring of echo studies.

Esaote ........................................................ 515
11907 Exit Five Parkway
Fishers, IN 46037
United States
Phone: 317-813-6000
esaoteusa.com
Esaote North America, Indianapolis, part of the Esaote Group, a global leader in research, production and marketing diagnostic medical equipment. Among the largest manufacturers of ultrasound systems worldwide, Esaote prides itself in achieving superior price and performance over competitors through focused ultrasound and office-based MRI imaging. Visit us at www.esaoteusa.com

European Association of Cardiovascular Imaging (EACVI) ........................................ 322
2035 route des Colles, Les Templiers
CS 80179 BIOT Sophia Antipolis 06903
France
Phone +33 4 92 94 76 45
escardio.org/EACVI
The EACVI is a vibrant community of almost 10,000 Cardiovascular Imaging experts and a knowledge provider in Multi-Modality Imaging, Echocardiography, Cardiovascular Magnetic Resonance, Nuclear Cardiology and Cardiac CT. Stop by the EACVI stand to discover our education catalogue, membership programme, publications, find out more about EuroEcho-Imaging and our other meetings.
Freeland Systems, LLC ............................... 225
12850 Hwy 9 N., Suite 600-443
Alpharetta, GA 30003
United States
Phone: 888-615-1888
freelandsystems.com
Freeland Systems is a multi-modality PACS System with a DICOM viewer and customizable reporting templates. In addition to a traditional locally installed system, we have a browser-based version that can act as a standalone system or in conjunction with the locally installed Freeland Systems application.

FUJIFILM Medical Systems U.S.A., Inc ........ 414
419 West Avenue
Stamford, CT 06902
United States
Phone: 203-324-2000
Synapse Cardiovascular provides echo labs one-click measurement tools, pre-configured and customizable report templates, and wall motion scoring intelligence to reduce read and report time. More than 400-ASE default measurements and calculations are available for analysis, and data from acquisition devices can be transferred to Synapse Cardiovascular to automatically populate reports.

GE Healthcare............................................. 306
9900 Innovation Drive RP-2162
Milwaukee, WI 53226
United States
Phone: 414-704-6137
gehealthcare.com
GE Healthcare provides transformational medical technologies that will shape a new age of patient care. GE Healthcare’s expertise in medical imaging and information technologies, medical diagnostics, patient monitoring systems, disease research, drug discovery and biopharmaceuticals is dedicated to detecting disease earlier and tailoring treatment for individual patients.

Heritage Medical Products, Inc .................. 529
10380 County Road 6310
West Plains, MO 65775-6331
United States
Phone: 888-256-8748
sonobed.com
Heritage Medical Products, Inc. is the only Sonographer owned medical exam bed manufacturer in the world. Our main goal is that fellow sonographers may have an exam bed that works for them, not against them. Come by and see how we can help avoid on the job injuries.

Hitachi Healthcare ...................................... 606
1959 Summit Commerce Park
Twinsburg, OH 444087
United States
Phone: 800-800-3106
hitachihealthcare.com
Hitachi Healthcare is proud of the reputation we’ve built as an industry leader in diagnostic ultrasound. Known for our unparalleled Doppler performance, superior system reliability and intuitive use of cutting edge technology, Hitachi Healthcare remains the ideal choice for exceptional diagnostic ultrasound imaging in the field of cardiovascular medicine.

ImageGuide Registry .................................. 326
2530 Meridian Parkway, Suite 450
Durham, NC 27713
United States
Phone: 919-861-5574
ImageGuideRegistry.org
The ImageGuide Registry® is the nation’s first clinical data registry for non-invasive cardiovascular imaging. The ImageGuide Registry currently contains two modules: ImageGuideEcho™, developed by the American Society of Echocardiography (ASE) and ImageGuideNuclear™, developed by the American Society of Nuclear Cardiology (ASNC). Both modules operate autonomously but also integrate seamlessly to track and improve quality for the benefit of patient care.
EXHIBITOR DESCRIPTIONS

Infinity Massage Chairs ........................................... 532

72 Stard Road
Seabrook, NH 03874
United States
Phone: 603-347-6000
infinitymassagechairs.com

Infinity Massage Chairs is the fastest-growing massage chair brand in North America, with an A+ rating with the Better Business Bureau. Our mission is to deliver innovative solutions to unlimited wellness for all lifestyles by engineering durable, customizable, and user-friendly products.

Intersocietal Accreditation Commission (IAC)....................................... 108

6021 University Boulevard, Suite 500
Ellicott City, MD 21043
United States
Phone: 800-838-2110
intersocietal.org

The IAC programs for vascular testing, echocardiography, nuclear/PET, MRI, CT/dental, carotid stenting, vein center, cardiac electrophysiology and cardiovascular catheterization are dedicated to ensuring quality patient care and support one mission: Improving health care through accreditation®. Visit our booth to learn how IAC can help your facility meet its quality goals.

Joe DiMaggio Children’s Hospital ............... 126

1005 Joe DiMaggio Drive
Hollywood, FL 33021
United States
Phone: 954-265-5324
jdch.com

Joe DiMaggio Children’s Hospital (JDCH) opened in 1992 and has grown to be the leading children’s hospital in Broward and Palm Beach counties. The IAC-accredited echocardiography lab at JDCH Heart Institute sees a wide range of complex cases. Currently seeking a dynamic individual to serve as Medical Director, Pediatric Echocardiography.

Joint Review Commission on Education in Diagnostic Medical Sonography (JRC-DMS) ................................................. 112

6021 University Boulevard, Suite 500
Ellicott City, MD 21043
United States
Phone: 443-973-3251
jrcdms.org

The JRC-DMS makes accreditation recommendations for diagnostic medical sonography programs to the Commission on Accreditation of Allied Health Education Programs. Programmatic accreditation is awarded to programs who through a self study and site visit demonstrate substantial compliance to published Standards and Guidelines specific to DMS.

KeLabs, Inc .................................................. 619

3500 DePauw Boulevard, Suite 1080
Indianapolis, IN 46268
United States
Phone: 317-824-1225
kelabs.com

KeLabs, Inc. is the creator of the echocardiography simulation learning software applications, Echo Test and Teach and Introduction to Echocardiography by Dr. Harvey Feigenbaum. In addition, KeLabs offers a robust data analytics software package, Information Center.

Lantheus Medical Imaging, Inc ...................... 115

331 Treble Cove Road
North Billerica, MA 01862
United States
Phone: 1-800-362-2668
lantheus.com

Lantheus Medical Imaging www.lantheus.com, a global leader in the development, manufacture and commercialization of innovative diagnostic imaging agents and products serving Echocardiography and Nuclear Medicine specialties, is headquartered in North Billerica, Massachusetts with offices in Puerto Rico and Canada.
Matrix Medical Network ........................................ 231
9201 E. Mountain View Road #220
Scottsdale, AZ 85258 United States
Phone: 602-621-1662
matrixmedicalnetwork.com

Matrix Medical Network brings care directly to individuals in their homes and in mobile health clinics through its nationwide clinical network. Matrix solutions include risk adjustment, quality gap closure, community and needs assessments, care management and post-acute support. Matrix supports Medicare, Medicaid, Commercial and Exchange members of all ages.

Mayo Clinic’s Wanek Family Program for Hypoplastic Left Heart Syndrome ............ 128
200 First Street SW
Rochester, MN 55905 United States
Phone: 507-293-7310
mayo.edu/research/centers-programs/todd-karen-wanek-family-program-hypoplastic-left-heart-syndrome

Mayo Clinic’s Todd and Karen Wanek Family Program works to find solutions for people with hypoplastic left heart syndrome.

ASEFoundation.org
9th Annual Research Awards Gala

“TENNESSEE WALTZ”

Sunday, June 24, 2018
from 7:30 – 11:00 PM

Presented by the ASE Foundation

at the Gaylord Opryland, Nashville, TN

Guests are encouraged to don 1950’s evening attire.

Private event. Separate ticket required.
As the largest global organization for cardiovascular ultrasound imaging, ASE is the leader and advocate, setting practice standards and guidelines. Comprised of over 17,000 physicians, sonographers, nurses, and scientists, ASE is a strong voice providing guidance, expertise, and education to its members with a commitment to improving the practice of ultrasound and imaging of the heart and cardiovascular system for better patient outcomes.

**ASE MEMBERSHIP**

ASE is an organization that is open to all echo enthusiasts. It serves its members in numerous ways by providing education, advocacy, research, practice guidelines, and a community for their profession. ASE membership includes over $750 of FREE CME credits a year, in addition to discounts on all ASE educational courses and products. Members also receive a monthly subscription to the *Journal of the American Society of Echocardiography* (JASE), a helpline for legislative coding and reimbursement issues, an image library, and other career resources. ASE membership through December 31, 2018 is included with most nonmember registrations for the ASE 29th Annual Scientific Sessions.

The ASE Education and Research Foundation (ASEF) is ASE’s charitable arm, helping to assure the viability and visibility of cardiovascular ultrasound. Every dollar raised through the Foundation’s Annual Appeal goes directly back out into the field. The Foundation conducts an Annual Appeal each year to solicit individuals, companies, and foundations to support its efforts. The ASE Foundation met 102% of its $250,000 fundraising goal for the 2017 Annual Appeal, raising $254,459. All contributions to the Foundation support the following initiatives:

- Demonstrating the Value of Cardiovascular Ultrasound
- Guideline Translations and Global Dissemination
- Global Health Outreach Events
- Patient Awareness
- Research Investigator Support
- Research Studies
- Travel Grants and Scholarships

Stop by the ASE Foundation booth, located in the Presidential Lobby on Level 2 to:

- Learn more about fundraising events being hosted in Nashville, such as the Annual Research Awards Gala and the Cardiovascular Challenge
- View the photo exhibition showcasing medically-related outreach event pictures
- Pick up your “I GAVE TODAY” ribbon
- Inquire about volunteer opportunities
- Purchase an ASEF bracelet
- Learn more about ASEF and become part of the “Chain Reaction” at ASE 2018

Look for ASEF Taskforce members with an “Ask Me” button, as they are dedicated donors who serve the organization by directly soliciting for donations from others. Donate today and help us to make a world of difference!

THE CARDIOVASCULAR CHALLENGE

Compete with your feet and get moving with the ASE Foundation! ASEF is highlighting physical activity, which can dramatically lower an individual’s risk of cardiovascular disease, improve mental health, and lower the risk of obesity related diseases. Key areas around the Gaylord Opryland will display step targets. The top three participants will win a prize! A $200 Amazon gift card will be awarded to the winner, second place will receive a $100 Amazon gift card, and the person with the third highest step count will receive a limited edition ASEF hat. Record your steps taken at the conference and check in each day with the ASEF Booth to log your steps and keep an eye on the competition. The winners will be announced Monday evening, June 25th during the Member Reception in the Exhibit & Poster Hall.

Special thanks to our 2018 Cardiovascular Challenge sponsors:

IMAGES FROM THE HEART GALLERY

Back this year, ASEF is presenting a curated display of photos taken by ASE members while they travelled the world participating in various medically-related outreach events. ASE members entered photographs that captured faces of people met along the way, landscapes, cultural observations, etc. and wrote a few heartfelt memories about what the photos meant to them. Stop by the ASEF booth in the Presidential Lobby to view the incredible photos and read the stories. Want to take these photos home? Many will be available with a donation to the ASE Foundation in the photographer’s name.

WOMENHEART RED BAGS OF COURAGE®

This year the ASE Foundation has set a goal to raise $25,000 for our Patient Awareness initiative. We have an opportunity to provide information about echocardiography directly to women with heart disease and those at risk through the WomenHeart’s Red Bags of Courage®. These bags include information on various aspects of heart disease to guide women to make healthy decisions. We need your help to get ASE information into these bags! Stop by the ASEF Booth and make a donation to Patient Awareness to bring us closer to $25,000!
THANK YOU — CUMULATIVE GIVING RECOGNITION

This list recognizes cumulative giving from individual donors as of December 31, 2017. Cumulative giving levels are updated annually at the conclusion of that year’s Annual Appeal. These all-star donors deserve a round of applause for their support of cardiovascular ultrasound.

The ASE Foundation would like to thank the following organizations for their support of the 2017 Annual Appeal

Cardiovascular Credentialing International
Elsevier Inc.
Greater Houston Society of Echo-Vascular
Johns Hopkins University
Knight Cardiovascular Institute
Massachusetts General Hospital
McLeod Regional Medical Center
MedStar Research Institute
National Board of Echocardiography, Inc.
Oregon Health & Science Center
Patel Family Foundation
Phoebe Putney Memorial Hospital
Studycast
Texas Children’s Hospital

2017 Partners in Care

Financial grant support, in-kind equipment, and logistical arrangements for global health events.
Edwards Lifesciences Foundation

Havana, Cuba, April 2017
Hermanos Ameijeiras Hospital, Havana, Cuba
Philips Latin America

Central China, September 2017
Xijing Hospital, Xi’an
General Hospital of Ningxia Medical University, Yinchuan

Northern Vietnam, October 2017
Vietnam National Heart Association
Vietnam National Heart Institute, Bach Mai Hospital, Hanoi

GE Healthcare

In-kind Research Support for the World Alliance Societies of Echocardiography (WASE) Normal Values Study

Medidata
MedStar Health
TOMTEC IMAGING SYSTEMS GMBH
University of Chicago

Ongoing Support through Multi-Year Grants for 2017 Scholarships and Travel Grants

Elsevier Inc.
National Board of Echocardiography, Inc.
TOMTEC IMAGING SYSTEMS GMBH
UltraEcho, Ltd.
This prestigious designation is only conferred upon a peer review of credentials specific to the field of cardiovascular ultrasound. ASE is proud to recognize these members for their dedication and accomplishments. Listed below are new FASE members from June 2017 - April 2018. For a complete list of FASE, please visit SeeMyHeart.org. Learn more about applying for FASE at ASEcho.org or stop by ASE’s booth #424. New inductees will be recognized at the ASE Awards Session on Sunday morning at 8:00 AM. Join us to recognize their accomplishment!

FASE LOUNGE – PRESIDENTIAL BOARDROOM A, MEZZANINE LEVEL

SATURDAY, JUNE 23RD – MONDAY, JUNE 25TH
9:00 AM – 4:00 PM

TUESDAY, JUNE 26TH
9:00 AM – 2:00 PM

Enjoy the benefits of being a Fellow of the American Society of Echocardiography (FASE) at the exclusive FASE Lounge. Come and pick up your FASE ribbon to show your dedication to your field and your prestigious designation. Lounge amenities will allow you to connect with friends, grab some refreshments, and take a break from the hustle and bustle of the day while being close to all the sessions.

MEET FACE TO FASE

Are you interested in becoming a Fellow of the American Society of Echocardiography (FASE) but have questions about whether you may qualify? Stop by the ASE Booth #424 in the Exhibit Hall, during the morning and afternoon breaks on Sunday and Monday, to talk one-on-one with a member of the FASE Advisory Group or ASE staff about any questions you have about achieving the FASE designation.

NEW FASE RECIPIENTS (JUNE 2017 – APRIL 2018)

Mahtab Abbasi, RDCS, FASE
Salaheldin Abusin, MD, FASE
Adam C. Adler, MD, FASE
Melissa A. Albrecht, RDCS (AE, PE), RVT, FASE
Mahtab Abbasi Alijizeeri, MD, FASE
Khawaja A. Ammar, MD, MS, FASE
Maged Y. Argalious, MD, MSc, MBA, M.Ed, FASE
Bhawna Arya, MD, FASE
Azriel Avezbadalov, DO, FASE
Bipul Baibhav, MD, FASE
Ryan D. Ball, MD, FASE
Kanwar Aditya Baloria, MD, FASE
Deepa Bhandare, MD, FASE
Stefaan Bouchez, MD, FASE
Lindsay Bridgford, MD, FASE
Robert F. Burke, MD, FASE
Darryl Burstow, MBBS, FASE
Michael Campbell, MD, FASE
Valerie Capone, RDCS (AE PE) RT(N), FASE
Yvette Carvallo, RDCS, RVS, FASE
Mohammed A. Chamsi-Pasha, MD, FASE
Christina Wei-Hsin Chan, MD, FASE
Shahrzad M. Chowdhury, MD, FASE
David J. Clancy, MD, FASE
Frederick T. Conlin, MD, FASE
Melissa A. Daubert, MD, FASE
Jeffrey Daniel Dayton, MD, FASE
Lenora Lynn Eberhart, BS, RDCS, (AE)(PE), FASE
Natalie Edwards, ACS, AMS, FASE
Nilda Espinola-Zavaleta, MD, PHD, FASE
William H. Fabian, MD, FASE
James F. Fair, III, MD, FASE
Anysia Fedec, RDCS, FASE
Mohamed Felo, MD, FASE
Christina Fields, BS, RDCS, RVT, RDMS, FASE
Lindsay R. Freud, MD, FASE
Michelle C. Fujioka, RDMS, RDCS, FASE
Chandrika Garner, MD, FASE
Chiara Scaglioni Tessmer Gatto, MD, FASE
Jeffrey B. Geske, MD, FASE
